List of Tables

Table 1  Showing the mean performance on simple task under three levels of crowding.  

Table 2  Showing the summary of two way Analysis of variance and F values for simple task.

Table 3  Showing the mean performance on a complex task under three levels of crowding.

Table 4  Showing the summary of two way analysis of variance and F values for complex task.

Table 5  Showing the significance of differences on Duncan's Range Test between the mean performances of subjects on a complex task under three types of crowding.

Table 6  Showing the mean performance of introverts on complex task under three levels of crowding.

Table 7  Showing the significance of differences on Duncan's Range Test
between the mean performance of introverts on a complex task under three types of crowding.

Table 8 Showing the significance of differences on Duncan’s Range Test between the mean performance of extroverts on a complex task under three types of crowding.

Table 9 Showing the significance of differences on Duncan’s Range Test between the mean performance of introverts and extroverts on a complex task under three levels of crowding.
