ACKNOWLEDGEMENTS
ACKNOWLEDGMENTS

I am extremely thankful to my supervisor, Dr. Haider A. Khan, whose encouragement, supervision and support from the preliminary to the concluding level enabled me to develop an understanding of the subject. He provided me with constant guidance, courage to tackle scientific queries and disciplined my working schedule. He heartily supervised the experiments and gave logical direction to my immature strategies. It would have been impossible to complete my work without his kind supervision.

I am highly grateful to Dr. Sarwat Sultana, Head, Department of Medical Elementology and Toxicology, Jamia Hamdard, Hamdard Nagar, Delhi for helping me in all possible ways. Her kind and helping nature along with the scientific advice helped me to finish my work on time.

I am extremely thankful to Dr. Raman Chawla, my collaborator in Center for Biological Radiological and Nuclear Events (CBRN), Institute of Nuclear Medicine and Allied Sciences (INMAS), New Delhi for arranging several facilities during the course of the work.

I would like to give special thanks to my friend Dr. Bilal Ahmad, B.Vsc. for his constant help in improving my understanding of the rat brain anatomy.

I wish to place on record my sincere thanks to my colleagues (both senior and junior) Dr./Mr./Ms. Anand Mohan, Jamil Zargar, Sadiq Umar, Meraj Ansari, Neha Kanojia, and Shahenshah Alam (secretarial assistance) who have helped me in all possible ways.

I would be failing in the end of my successful journey, if the blessings of my parents and elder brother (Dr. Mir Sadaqat) and my sister-in-law (Dr. Raiesa) were not there. I am extremely grateful for their kind support and patience from the last five years especially my father who stayed as a beacon light in the murky waters. I am thankful to Mr. Mir Kamil for the love he has bestowed to our family by his innocent presence. I would wish to give my kind regards to Dr. Mudhasir, Dr. Shubha Shukla and Dr. Nishi Srivastava who have helped me by giving moral support.

I am indebted to my wife, Farrah Ali who stayed patient during my work schedules and constantly helped in coming over in tough situations. Her understanding nature and positive criticism really helped me to bounce across the border.

I am grateful to Dr. G.N Qazi, Vice Chancellor, Jamia Hamdard, New Delhi for providing research facilities and support all along my tenure. I am thankful to Ministry of Health and Family welfare (M.O.H.F.W) & ICMR for providing me with Senior Research Fellowships tenable at Jamia Hamdard, New Delhi.

Above all I am thankful to Almighty Allah for His grace on me.

Date: June 18, 2011
(Mir Sajad Hassan Zaffer)
