ACKNOWLEDGEMENTS

1) It gives me great pleasure to express my profound sense of gratitude to Dr K.G. Bhattacharyya, Professor, Department of Chemistry, Gauhati University, Assam for his valuable stimulating guidance, supervision and constant inspiration during the entire period of my research work.

2) I have also pleasure in gratefully acknowledging the help and cooperation of Dr Arundhuti Devi, Assistant Professor, IASST, Guwahati during this work.

3) I shall remain grateful to Dr O.K. Medhi, Dr C. Medhi, Dr J.N. Ganguly and all other teachers of the Department of Chemistry, G.U for their valuable help and suggestions.

4) I gratefully acknowledge the financial assistance granted by the Ministry of Environment and Forests, Government of India for this work under a Research Project granted to my supervisor.

5) My thanks also go to Gitali, Suranjana, Nibedita, Jyotirekha, Monidipa Ba, Parashmoni, Bijoy, Keshobda, Hitesh and other coworkers for their co-operation and help in many ways.

6) I am grateful to my parents Mr H. Patowary and Mrs J. Patowary for their support and help, constant encouragement, valuable suggestions and blessings, which make this work possible for me.

7) I am especially thankful to my husband Dr S. Karmakar, Scientific officer, USIC, Gauhati University for his valuable help and encouragement.

8) I extend my warm thanks to my brothers and sister for their help.

9) Lastly, I express my thanks to all my friends and wellwishers for their help and suggestions.

Date: 16-06-2009

(Kabita Patowary)
