ACKNOWLEDGEMENT

Words are inadequate to express my feeling while recording my deep sense of gratitude and respect to my teacher and guide Prof. S. R. Patil. The work presented here could not have been accomplished without his inspiring guidance, constructive criticism and constant encouragement during the course of my research programme.

I owe to Prof. S. R. Patil, Head, Department of Chemistry, and Shivaji University Kolhapur for providing necessary facilities and encouragement during research work.

My gratitude and sincere thank to Dr. G. B. Kolekar and all teaching staff for scientific guidance, earnest suggestions and encouragement during this work.

I sincerely acknowledge the University authorities for providing me Department Research Fellowship (DRF) and financial support as Teaching Assistant during the research period.

I sincerely thank the non-teaching staff of the Department of Chemistry, Shivaji University Kolhapur for their help and co-operation.

My special thanks are due to my research colleagues and friends.

I am greatly indebted to my father Dr. Laxman S. Bhattar, mother Sou. Shanta L. Bhattar who are the real source of encouragement and strength and have brought great deal of happiness to my life. As parents, they provided me the encouragement not only for the period of this thesis but throughout my life. The inspiration and affection of my sister Prabhavati, brothers Chandrakant, and Poornachandra Tejasvi
have provided me all type of moral and emotional support throughout my work.

Finally, I am very much thankful to all those who have assisted me directly and indirectly in the completion of this thesis

Mr. Swaminath L. Bhattar
