ACKNOWLEDGEMENTS

Read in the name of Lord, Who has created all that exist
He has created man from a clot. Read and your lord is more generous
Who has taught (the writing) by the pen
Sura: Alaq Al-Quran

To the Almighty Allah, the creator of everything for providing me enough capability, patience and strength that enabled me to complete this work successfully.

First of all, I would like to give my sincere thanks to late Janah Hakeem Abdul Hameed Sahib, the Founder of Jamia Hamdard for gifting the ocean of knowledge in the form of Jamia Hamdard that irrigated thousand of dry brain and for being the source of inspiration not only me but to many.

I feel immense pleasure in expressing my wholehearted thanks, regards and deep gratitude to my supervisor, Dr. Altaf Ahmad, Department of Botany, Faculty of Science, Jamia Hamdard. He brought me the opportunity to carry out my doctoral study in science and whose encouragement, guidance, responsible supervision, patient discussion and support from the initial to the final level enabled me to develop an understanding of the subject during my Ph.D., in particular for his great help on paper-writing and thesis-writing stages, he left no stone unturned in completion of this work. His rigorous attitude and persistent pursuit of perfection in science have deeply impressed me. Dr. Altaf not only afforded me much help in my research work but also influenced me imperceptibly by his nice personality. He sets a perfect example for me, and I admire him so much, which cannot be described in words.

I take this opportunity to express my profound gratitude and sincere regards to Prof. Javed Ahmad, Head, Department of Botany, Jamia Hamdard for his wise direction, sagacious suggestions and solid supports. I feel immense pleasure in expressing my thanks and deep gratitude to Prof. Javed Sir for his valuable ideas and all the needed facilities which he provided to make this work possible.

I feel deeply obliged and indebted to Prof. MZ. Abdin, Dean, Faculty of Science, Jamia Hamdard, for their valuable help, support and all the needed facilities which he provided to make this work possible. The facilities provided to carry out of this research work are gratefully acknowledged.

I feel pleasure in expressing my sincere thanks to teaching staff of Botany Department, Prof. Muhammad Iqbal, Prof. M.P. Sharma, Dr. T. O. Siddiqui, Dr. Mahmouduzzafar, Dr. Shahid Umar and Dr. Abdul Mujib for their erudite guidance, timely suggestions, keen interest, sustained encouragement and constant encouragement.
I would like to show sincerely grateful to Dr. Upendra Dhar, NASI-Senior Scientist, Department of Botany, Jamia Hamdard, for providing plant samples for carrying out this research work.

I feel deeply obliged to Dr. Mohd. Asif, Department of Islamia, Faculty of Medicine, Jamia Hamdard, for his kind consideration me as SRF in his CCRUM Project.

I want to express my personal appreciation to Dr. Ishrat Khan, Dr. DS Kothari Fellow, Department of Botany, Faculty of Science, Jamia Hamdard. She took care of us very much like our dear family. I would like to thank for her hospitality and timely help. She is a respectable scientist with great insights. Much needed helping hand and also the much appreciation came to me from Mohsin, Hemant and Deepak for their valuable moral support and suggestions and for being with me in all the difficulties. Many thanks to Dr. Hema, Asha, Aradhana, Saima, Lata, Yasir, Ashad, Mushtaq, Shamim, Shahram, Jyoti, Afroj and all to support me in all the possible ways.

I express my thanks to non-teaching staff, specially Dr. S.D. Sharma and Mr. Irshad for helping me to carry out research work in CIF. A work of appreciation goes to Mr. Zakir and Mr. Imran for their cooperation. I appreciate the assistant and painstaking help rendered by Mr. Abdul Kareem, Mr. Noor Mohammad, Mr. Abdul Wahid, Mr. Hasim Ali and Mr. Saleem Khan. I am also thankful to faculty librarian Mrs. Zia Fatima and Mr. Shamim for providing all library help.

I express my thanks to DRT & CCRUM for providing me Junior Research Fellowship (JRF) and Senior Research Fellow (SRF), respectively.

I shall feel very fortunate to mention the thanks and contribution of my beloved wife Mrs. Saira Parveen who always paid attention and stood by me to expedite and to encourage for this work. She is always nearby to support me, listen to me and encourage me. She is also my best friend, sharing my happiness and sadness, influencing me by her aspiring and optimistic spirit. The time spent with lovely and adorab son Mohd. Aqdash has been as the booster dose for thesis work.

Last, but not least, I would like to thank my parents for their deepest love and unqualified moral support that I have received from them, making me the luckiest child in this world. I would like to pay very special thanks to Papa Mr. Khursheed Ahmad and Ammi Mrs. Wahyan Khatoon for educating me with aspects from Islam and Sciences. I am fortunate to have such as adorable, caring, affectionate and sacrificing care-takers. I wish to thank my Grand Mother, her inspiration and prayers have always been a driving force behind my efforts.

Towards ending, I whole-heartedly put on record the thankful appreciation towards my elder brother Mr. Rashid Ahmad, younger brother Mr. Nafeesh Rahman, lovely brother Mr. Mohd. Israr and sister Mrs. Shabnam for their constant support and help. I express my deep sense of
gratitude toward my all Aunts and Uncles, especially Mr. Intiyaj Ahmad and all, who have always supported and encouraged me to reach where I am today. This acknowledgement would be incomplete without remembering my Nani and late Nana ji who have and will be my guiding star in life.

There are some supporting people that I might have forgotten; exhaustion plays havoc on memory. My humblest apologies to those who consider having earned for themselves being cited amongst these lines.

(Anis Ahmad Chaudhary)
