ACKNOWLEDGEMENT

First, I thank God Almighty for the immense blessings and the will power given to me to complete my research work.

It gives me immense pleasure to place on record my deep sense of gratitude and respect to my guide Prof. G. Karthikeyan, Department of Chemistry, Gandhigram Rural Institute, Gandhigram, for suggesting the problem and kindly providing necessary facilities. Without his constant encouragement this work would have not been completed. I appreciate his enthusiastic involvement, scientific training and fatherly affection during the course of this work.

I am deeply indebted to my co-guide Dr. K. Anbalagan, Reader in Chemistry, Gandhigram Rural Institute, Gandhigram, for his valuable guidance and helpful discussions during the course of this work.

I wish to record my sincere thanks to Prof. N. S. Nagarajan, Head, Department of Chemistry, Gandhigram Rural Institute, Gandhigram, for providing constant encouragement and the necessary facilities.

My grateful thanks are to Dr. K. P. Elango, Lecturer, Department of Chemistry, Gandhigram Rural Institute, Gandhigram, for his valuable support and constructive suggestions.

My sincere thanks to all the teaching and non-teaching staff members of the Department of Chemistry, Gandhigram Rural Institute, Gandhigram for their help but for which the present study would not have been possible.

I express my sincere thanks to Dr. A. David Ravindran, Reader, Department of Biology, Gandhigram Rural Institute, Gandhigram, for his kind help rendered to me during this investigation.
I express my sincere gratitude and thanks to Dr. S. Lakshmi, Reader in English, Gandhigram Rural Institute, Gandhigram, for her keen interest and useful suggestions in proof correction of this thesis.

The financial assistance rendered during this investigation by the Rajiv Gandhi National Drinking Water Mission, Government of India, Ministry of Rural Development, New Delhi is gratefully acknowledged.

I express my sincere thanks to my friends Mr. A. Shunmuga sundarraj, Mr. N. Karmegam, Ms. R. Vasantha, Ms. K. Vigneswari, Mr. S. G. Ramkumar and Mr. R. Harikumar for their fullest support during this investigation.

Last but not least I wholeheartedly thank my dearest son, my beloved husband, my beloved parents, my dear brother and sister and in-laws for sparing their time and constant encouragement throughout the period of this work. Their loving concern, care, understanding and sacrifices made my task much easier.

Finally I thank all those who have helped me directly or indirectly in the successful completion of my thesis. I place my sincere gratitude on record to all of them.

Gandhigram
August 14, 2003
