CHAPTER I    INTRODUCTION  1-8

CHAPTER II   REVIEW OF LITERATURE  9-34

CHAPTER III  MATERIALS AND METHODS  35-63

a. Host plants examined
b. Sampling localities
c. Sampling of infested plant parts
d. Rearing of mites
e. Biological Studies of Spider mites

A. Feeding biology
   1. Qualitative assessment of feeding injury
   2. Quantitative assessment of damage potential
      a. Estimation of Chlorophyll loss
      b. Estimation of Total Phenol content in leaf sample
      c. Estimation of Protein Profile

B. Breeding biology
   1. Postembryonic development
   2. Preparation of saturated salt solutions to maintain constant RH
   3. Morphological studies of developmental stages
   4. Preparation of mounting medium
A. FEEDING BIOLOGY

1. Nature of infestation by *Tetranychus neocaledonicus*
   1.1 Feeding activity of *T. neocaledonicus*
   1.2 Damage symptoms induced by *T. neocaledonicus*
   1.3 Quantitative estimation of chlorophyll content
   1.4 Quantitative estimation of phenol content

2. Nature of infestation by *Tetranychus ludeni*
   2.1 Feeding activity of *T. ludeni*
   2.2 Damage symptoms induced by *T. ludeni*
   2.3 Quantitative estimation of chlorophyll content

3. Nature of infestation by *Tetranychus cinnabarinus*
   3.1 Feeding activity of *T. cinnabarinus*
   3.2 Damage symptoms induced by *T. cinnabarinus*
   3.3 Quantitative estimation of chlorophyll content

4. Nature of infestation by *Eutetranychus orientalis*
   4.1 Feeding activity of *E. orientalis*
   4.2 Damage symptoms induced by *E. orientalis*
   4.3 Quantitative estimation of chlorophyll content

5. Nature of infestation by *Oligonychus biharensis*
   5.1 Feeding activity of *O. biharensis*
   5.2 Damage symptoms induced by *O. biharensis*
      5.2.1 Mechanical injury induced by *O. biharensis*
      5.2.2 Protein profile of *M. esculenta* following infestation by *O. biharensis*
   5.3 Quantitative estimation of chlorophyll content
   5.4 Quantitative estimation of phenol content
B. BREEDING BIOLOGY

1. Postembryonic development of *Tetranychus neocaledonicus*
   1.1 Oviposition
   1.2 Hatching
   1.3 Duration of developmental stages
      1.3.1 Incubation period
      1.3.2 Larval period
      1.3.3 Protonymphal period
      1.3.4 Deutonymphal period
      1.3.5 Quiescent periods
      1.3.6 Moulting
      1.3.7 Adult Stages
   1.4 Mating
   1.5 Parthenogenetic versus sexual development
   1.6 Morphological description of life stages of *T. neocaledonicus*

2. Postembryonic development of *Tetranychus ludeni*
   2.1 Oviposition
   2.2 Hatching
   2.3 Duration of developmental stages
      2.3.1 Incubation period
      2.3.2 Larval period
      2.3.3 Protonymphal period
      2.3.4 Deutonymphal period
      2.3.5 Quiescent periods
      2.3.6 Moulting
      2.3.7 Adult Stages
   2.4 Mating
2.5 Parthenogenetic versus sexual development

2.6 Morphological description of life stages of
   *T. ludeni*

3. **Postembryonic development of *Tetranychus cinnabarinus***

3.1 Oviposition
3.2 Hatching
3.3 Duration of developmental stages
   3.3.1 Incubation period
   3.3.2 Larval period
   3.3.3 Protonymphal period
   3.3.4 Deutonymphal period
   3.3.5 Quiescent periods
   3.3.6 Moulting
   3.3.7 Adult Stages
3.4 Mating
3.5 Parthenogenetic versus sexual development
3.6 Morphological description of life stages of
   *T. cinnabarinus*

4. **Postembryonic development of *Eutetranychus orientalis***
4.1 Oviposition
4.2 Hatching
4.3 Duration of developmental stages
   4.3.1 Incubation period
   4.3.2 Larval period
   4.3.3 Protonymphal period
   4.3.4 Deutonymphal period
   4.3.5 Quiescent periods
   4.3.6 Moulting
   4.3.7 Adult Stages
4.4 Mating
4.5 Parthenogenetic versus sexual development
4.6 Morphological description of life stages of *E. orientalis*

5. **Postembryonic development of *Oligonychus biharensis***

5.1 Oviposition
5.2 Hatching
5.3 Duration of developmental stages
   5.3.1 Incubation period
   5.3.2 Larval period
   5.3.3 Protonymphal period
   5.3.4 Deutonymphal period
   5.3.5 Quiescent periods
   5.3.6 Moulting
   5.3.7 Adult Stages
5.4 Mating
5.5 Parthenogenetic versus sexual development
5.6 Morphological description of life stages of *O. biharensis*
