ACKNOWLEDGEMENTS

It gives me immense pleasure to present this thesis based on the problem suggested by Dr. S.P. Borah, Professor, Department of Botany, Gauhati University. I express my heartfelt gratitude and sincere thanks to Dr. S.P. Borah for his able guidance, keen interest, sustained encouragement, sympathetic counselling and valuable suggestions in carrying out this piece of research work which finally resulted in the completion of this thesis.

I take this opportunity to express my sincere gratitude to Professor S.K. Borthakur, Head of the Department of Botany, Gauhati University for providing me necessary facilities for completion of my research work in the department.

I wish to express my grateful acknowledgements to Dr. K.N. Bora, retired Professor, Dr. S.K. Sarmah, Dr. G.C. Sarmah and Dr. D.K. Jha, of Department of Botany, Gauhati University, Guwahati for their constant inspiration and valuable suggestions during my course of work.

I am indebted to Dr. Tilak Chandra Dutta, Senior Lecturer, Digboi College, Digboi, Assam, Mrs. Niroda Saikia, Assam Agriculture University, Jorhat, authorities of Indian Council of Agricultural Research, Borapani, Shillong and the academic staff members of Arya Bhatta Junior Science College, Ganesguri, Guwahati for extending their help and co-operation during the course of my research work.

I am also thankful to the authorities and staff members of K.C. Handique Library, Gauhati University, Guwahati for providing me facilities for study. I also offer my heartfelt thanks to Rahim Ali for his kind cooperation in my present work.

I wish to appreciate the help rendered by Nazim Forid Islam, Research Scholar, Department of Botany, Gauhati University, and Snachay Jyoti Borah, Research Scholar, Department of Chemistry, Gauhati University throughout my research work.
am very much grateful to Bhupen Kr. Nath, Research Scholar, Department of Statistics, Gauhati University, for his valuable help in statistical analyses.

I am also grateful to my brother Khargeswar Barman for taking care of my experimental field. I also extend my thanks to Nityananda Kalita, Tapan Ch. Kalita, Rabin Kalita and all my family members for their constant inspiration in completing my research work.

I am further indebted to Martinet Computer Center, Jalukbari, Guwahati, for neatly composing my thesis within a very short period of time.

Last but not the least I want to offer my heartfelt gratitude to my mother and father without whom the completion of the present work would not have been possible.

As it is very difficult for me to list the names of those who have generously shared with me the information and ideas that are invaluable in the preparation of this thesis, I gratefully acknowledge them all.
