ACKNOWLEDGEMENT

The author expresses her deep sense of gratitude to her supervisor 
**Dr. M.R. Mohan**, Professor and Chairman, Faculty of Electrical Engineering, Anna University, Chennai for his invaluable guidance, patient and constant encouragement throughout the course of this thesis work. The author is indebted to her Doctoral Committee members **Dr. S.R. Paranjothi** and **Dr. B. Viswanathan** for their inspiring and invaluable suggestions throughout the course of this thesis work.

The author wishes to thank **Dr. B. Umamaheswari**, Head of the Department of Electrical and Electronics Engineering, Anna University, Chennai and **Dr. M. Velan**, Head of the Department of Chemical Engineering, Anna University, Chennai for their kind support and facilities provided to complete the work in time. The author wishes sincere thanks to **Dr. R. Ramanujam**, Professor, **Dr. R. P. Kumudini Devi**, Assistant Professor and **Dr. G. Uma**, Assistant Professor, DEEE, for their constructive discussions throughout the duration of this research work.

The author expresses her sincere thanks to **Shri. R. Chellappan**, CEO, Numeric Power Systems Limited, Chennai, India for providing testing, realization of hardware and valuable practical suggestions. The author wishes to thank **Shri. P. Salil**, Scientific Officer, Sameer Centre for Electromagnetics, Chennai, India for providing various testing and measurement facilities.

The author expresses a large measure of her gratitude to her parents, relatives and friends for their moral support and encouragement. Needless to say, short of the blessings of the almighty, it would have been next to impossible to envisage this thesis report.

**C. SHARMEELA**
