ACKNOWLEDGEMENT

My pleasure know no bounds as I was on the verge of completing this work. My heart goes out to those persons and I am overwhelmed with their help, assistance, guidance and blessings, they bestowed upon me. As I am in the pervasive mood and lost in the memories of the past all the persons step one by one before my mental eyes. Then I have no other alternative than to confess that I was only the means in the hands of those persons, actually they helped me to complete this study.

The major share and my very first heartily gratitude goes to my honourable guide Dr. K. D. Gaikwad, Principal, Venutai Chavan college of Education, Satara. He has always guided at all the stumbling blocks and critical moments in this period and showed me the right direction. It was only because of his implicit and valuable guidance, that I could complete this work. My feelings about him are beyond words. I am also grateful to his family for their encouragement. The experiment was completed in Azad College of Education, Satara. I would like to record my heartily gratitude to the Principal N. S. Maner for their permission to conduct the experiment for making all the resources available for the successful conduct and completion of experiment. I am also greatful to Principal A. P. Kharat, for inspiration and motivation to me.

It gives me pleasure and duly to thank my present Principal Dr. M. L. Jadhav for his inspiration and motivation to me.

I thank my colleagues Dr. R. A. Kumbhar and Smt. V. V. Jadhav for giving valuable suggestions as a resource person. I am thankful to the experts and subject teachers who made valuable suggestions for developing tools. I owe my gratitude to all the principals and staff of Azad College of Education, Satara who shaped me as a teacher-educator. My thanks are due to other colleagues Shri. A. S. Ravikirti, Shri. V. D. Dhondage, Shri. N. D. Dhanawade, Shri. S. A. Kharat, Shri. R. R. More, Shri. S. B. Ingawale, Ms. Nangare, Ms. Dole, Ms. Nalawade
and all other staff members teaching and non teaching staff for their valuable help.

It would be a kind of sheer ingratitude towards my all dear and painstaking student teachers who actively involved in the actual experiments. My special thanks to student teachers Shri. Mestri Javed, Shri. Babar Baliram for their assistance and all types of arrangements during experiment.

Thanks are due to Librarian Shri. S. R. Godase and attendant Shri. A. A. Babar for help and use of library. I also thank Librarian, Jaykar Library, Pune University, Pune and Librarian, Venutai Women’s College of Education, Satara for allowing me to use their libraries.

Help from my family members can’t be forgotten. I am very thankful to my father Dr. P. A. Nikam for concrete and valuable guidance and suggestions. I express deep sense of love to my mother and other family members who are the chief source of my inspiration. All possible help, inspiration and patience bestowed by husband Shri. Mahesh and child Harshwardhan can’t be forgotten.

The thanks are due to my sister Vidya and brother-in-law Shri. Atul and to brother Shri. Surendra and sister-in-law Rajani for their tireless and instant help.

I specially thank Mr. Mukund Dhavale, Mrs. Aruna Dhavale and Mr. Raju Kulkarni of Relax Cyclostyling, Satara and J & T Computers for their neat and systematic typing.

(Smt. Nikam V. P.)
