Firstly I would like to be grateful to ALMIGHTY who always showers blessings and strength to fight against all odds and tough time in my life.

I would like to express deep sense of gratitude to my advisor, Dr. K. V. PATEL, Former Professor & Head, Department of Food Processing Technology A.D. Patel Institute of Technology, New Vallabh Vidyanagar, Anand, for his creative guidance, genuine incitement, genial disposition and timely constructive suggestions throughout the course of investigation which today enabled me to present this text. His perpetual energy and enthusiasm always motivated me. I solemnly submit my honest and humble thanks. I pay my due respect and thanks to Dr. R. K. Jain, Principal, A. D. Patel Institute of Technology for permitting me to continue my PhD work and for the invaluable guidance, profound support and facilities provided.

I am greatly indebted to Dr. C.L. Patel, Chairman Charutar Vidyamandal, Vallabh Vidyanagar, for permitting me to pursue this course as an in-service candidate. I wish to thank Dr. V.S. Patel, Director, Sophisticated Instrumentation Center for Applied Research and Testing, Vallabh Vidyanagar for his valuable suggestions and providing laboratory infrastructure for the research project. Sincere thanks to Dr. S. Shrivastav, Head, Department of Food Processing Technology, ADIT, New V.V. Nagar, for his encouragement and sustained support during completion of this project.

I would like give my sincere thanks to Dr. A. H. Jana, HOD, Department of Dairy Technology, SMC College of Dairy Sci., Anand for their valuable guidance.

I gratefully acknowledge M/s. Modern Dairies, Karnal for providing Rennet casein, M/s. Duke Thomson, Indor for Providing Butter Bud Flavour and M/s. Shree additives pharma and Food, Ahmedabad for providing Modified Starch and Emulsifier used in the formulation during this research work.

I would like to thanks Dr. Anil Nandane, Dr. Pravin Ganorkar and Dr. Ajay Tapre for their guidance on statistical methods, analytical queries, technical writing and formatting of the present text. Their guidance is invaluable.
Special thanks to Dr. D. C. Joshi, Dean, College of Food Processing Technology and Bioenergy, AAU, Anand for allowing me to do chemical analysis of Mozzarella Cheese Analogue at their institute.

My sincere gratitude goes to my colleagues Mrs. D. B. Patel for their help on mathematical derivations and being a panel member for sensory evaluation. I am also thankful to Prof. S.K. Misra, Dr. A. S. Kulkarni and Dr. Ankita Singh for their cooperation and support throughout the investigation.

I would also like to place on record the cooperation extended by all lab assistants during the investigation. Very special thanks to Sameerbhai and Mahendrabhai for their timely support in conducting experiments and analysis. I am also thankful to Rainaben, Hetalben and Jigneshbhai for their help during raw materials, chemicals and glassware procurement. The supporting staff of Dept. of Food processing Technology, Vijuhi Paramar, Dineshbhai Solanki and Gautam Rabari is gratefully acknowledged. I am thankful to Final level students of Dept of Food Processing Technology, Siddhesh, Smit, Anil, Nilang and Akshay who helped me in laboratory trials.

The biggest inspiration in my academic endeavors has always been my family. I have the utmost admiration for my parents, sisters, Mrs. Prital N. Shah and Dr. Nehal diwanji and My Brother-in-laws, Dr. Nirajkumar D. Shah and Dr. Sanket R. Diwanji for their continuous support throughout the work without their love, moral support, sacrifice and blessings, my dream would not have been a reality. It is only because of them today I am on verge of being doctorate. Very special thanks to my wife, Dr. Dhara, for her unconditional support, cooperation and understanding me in ways that no one else can. My son, Dhairya attuned with me during period of this research project.

I am thankful to all of those with whom I have the opportunity to work during this academic pursuit and who had directly or indirectly helped me during this work.
