ACKNOWLEDGEMENTS

Ph.D. is a degree in which research work has to be carried out. For a part time Ph.D. scholar it would be so difficult to work for it without the help of other people. Quite obviously, I have received help from my family members, friends, colleagues, organizations, researchers, authors and my dear most students. I sincerely wish to thank one and all for the help extended by them.

It would have been impossible to accomplish this work without the kind responses of the firms responded to my questionnaires and provided me the most useful data, which was the basic necessity of the present study. I appreciate their support and thank them.

I thank my Guide Dr. P.M.George with a deepest sense of gratitude. He was a constant source of motivation and was always there to guide me. He was always there to give me valuable inputs and to motivate me on continuous basis.

I express my heartfelt gratitude towards my Co Guide Dr. H.J.Jani for providing me strong support and helping me conceptualize the topic right when I was making a proposal and then giving critical remarks in my work.

I do not want to miss out on this opportunity to express my gratefulness towards Prof. A.M.Shaikh (Ex. Principal, B.V.Mahavidyalaya) for being my Guide in the initial phase of my registration as a Ph.D. scholar and my work for the first three years. He was the one who was instrumental in making me realize my potential. I also thank Dr. F.S. Umarigar (Principal, B.V.Mahavidyalaya) for his constant support.

I am thankful to Dr. K.Rathnam (G.M., AMUL) and Mr. Vipul Rawal (D.G.M., ELECON), Mr. Baiju Thakar (M.D.,Flowell) and Mr.Sunil Dave (M.D.,BCI) for helping me with their contacts in the industry to get responses from the firms. There are a few more people who helped me in exploiting their contacts in my favour to get the questionnaires filled by the firms; they are Mr. Anil Gupta, Mr. Mitesh Shah, Mr. Chandrakant Patel and Mr. Naishad Desai. I thank all of them for their timely and precious help.

Many of my colleagues have helped me and have continuously inspired me to complete my work. I thank each one of them for the same. Special thanks to Prof. Manan Desai, Prof. Kumarpal Trivedi and Prof. Mitesh Vegad, for their constant support and helping hand even at odd hours. I thank Prof. Manish Mehta and Prof. Vinod Patel for their help. I would like to express my gratitude towards Dr. R.P. Arora, Late Prof. B.K. Raghunath and Prof. B.A.Doshi for inspiring me to carry out the research work. I am also thankful to Prof. Darshak Desai, Prof. Hemant Thakkar and Prof. Nilesh Desai for their help during the course of my research.
My special thanks to Mr. Bhadresh Patel (BVM) and Prof. Rajubhai Rathod (GHPPGIMBA) for their inputs in data management and statistical analysis.

A teacher’s biggest asset is his students. A few of my past students as well as current students have assisted me in my marathon work by getting the questionnaires filled from industrial firms and supporting me in whatever way they could. They are Vatsal Thakkar (A special mention for the amount of assistance rendered by him and being so enthusiastic and to work almost as a research assistant in my work), Krishna Bhatt, Hemik Patel, Harsh Soni, Dushyant Bhatia, Abhinav Vaidya, Arjit Gupta, Vrunda Thacker, Cauvery Patel, Sandip Gosai, Nitant Shah, Parth Bhatt, Ajay Atkotia, Jamshed Patel, Kevin Ghaghada, Bhavin Trivedi, Nirav Sisodia, Avnish Thakkar, Aliasgar Vilayatwala, Rajiv Bhardwaj, Shweta Agrawal, Hirwa Bhadja, Tarannum Shaikh, Nikul Rawal, Chintan Patel, Vidisha Shetty, Nehal Mehta, Niti Shukla, Nupur Pandya, Ayush Velega, Ayyan Karmakar, Apurva Mistry, Mirali Patel and Parth Patel. I thank each one of them for their support.

My thanks to Mr. Ajay Megha and Mr. Bindu Bhatt for their help related to university matters.

I also thank Bhavin Shah, my student of year 99 batch for continuously reminding me and carrying out follow up for my Ph.D. work all the time.

I whole heartedly thank Dr.C.L.Patel (Chairman, Charutar Vidya Mandal) for permitting me to pursue my Ph.D. along with my job. I also thank Principal Dr.H.B.Soni (GCET) for giving me freedom to use college premises for my research work even during late hours.

Bhavana, my wife, is happier than me, when I am accomplishing my task of research. She is the biggest source of motivation and has sacrificed a lot while I was working for this. I am feeling short of words while expressing about her contribution and support in my research work. She was the one who kept on giving me the strength and courage for my present work. Manasi, my beloved daughter also kept on reminding me of the deadlines and gave me spark whenever I was feeling low or dull. My son Abhishek also helped in making charts and in data entry and happily worked with me during late hours in the college while I was writing my thesis.

In the end I would like to bow down to Lord Shree Swaminarayan for showering His blessings on me and to show me the right path to travel on.
