</table>
13 4.11 Component wise No. of positive and negative statements for final form
14 5.1 Total number of students drawn for sample from different districts of Gujarat state
15 5.2 Gender wise, area wise and standard wise no. of students included in sample
16 5.3 Frequency distribution of the sample and other statistics
17 5.4 Gender wise frequency distribution and other statistics
18 5.5 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of boys and girls students
19 5.6 Area wise frequency distribution and other statistics
20 5.7 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students belonging to urban and rural
21 5.8 Standard wise frequency distribution and other statistics
22 5.9 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of std.–11 and std.–12 students
23 5.10 Frequency distribution of achievement of students
24 5.11 Achievement wise frequency distribution of mental health scores and other statistics
25 5.12 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of high and low achievement of students
26  5.13 Stream wise frequency distribution of mental health scores and other statistics  
27  5.14 Category wise frequency distribution of mental health scores and other statistics  
28  5.15 Percentile Rank (PR) of mental health score  
29  5.16 Raw scores and their equivalent T – scores  
30  5.17 Distribution of T-Scores of mental health scores  
31  5.18 Mental health level interval limits of $1.2\sigma$ and theoretical percentages of scores receiving at each level  
32  5.19 Classification of mental health level (Observed)  
33  5.20 Scattergram of scores on test and retest  
34  5.21 Scattergram of scores on even and odd statement  
35  5.22 Difference of odd and even statements along with total score and square of those scores for Rulon method  
36  5.23 Reliability coefficient with $SE_r$ for the present scale  
37  5.24 Inter-correlation between components of the scale and between each component and the whole scale  
38  5.25 Scattergram of scores on present scale and mental health analysis questionnaire  
39  5.26 Expected and observed weightage with statement no.  
40  6.1 Gender, area and standard wise sample for related studies  
41  6.2 No. of students, Mean, SD, $SE_D$ and t-ratio of mental health scores of boys and girls students
42 6.3 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students belonging to urban and rural area

43 6.4 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students of Std.-11 and Std.-12

44 6.5 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students of high and low achievement

45 6.6 No. of students, Mean and SD of mental health scores of students with different streams

46 6.7 t-ratio including SE_D of students scores from different streams

47 6.8 No. of students, Mean and SD of mental health scores of students with different categories

48 6.9 t-ratio including SE_D of students scores from different categories

49 6.10 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students belonging to high and low SES

50 6.11 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students having high and low emotional intelligence

51 6.12 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students having high and low anxiety

52 6.13 No. of students, Mean, SD, SE_D and t-ratio of mental health scores of students feeling security and insecurity
