ACKNOWLEDGEMENTS

Co-ordinating this study has been a wonderful learning experience for me and I am thankful to Professor Kaza Somasekhara Rao for conceiving this study, suggesting a methodology, and proving me this opportunity. His constant motivation, guidance and stimulus have helped me immensely.

I would like to acknowledge the active help and support extended Professor C. Rambabu, Special Officer & Head of the Department of Chemistry, Acharya Nagarjuna University – Dr. M.R. Appa Row Campus, apart from being a source of support for me, have provided critical inputs and valuable comments on my drafts. I would particularly like to thank Dr. D. Ramachandran and Dr. M. Subba Rao for their concrete suggestions.

I am thankful to the Acharya Nagarjuna University authorities, Nagarjuna Nagar, Guntur for their permission to carry out my research work at Dr. M.R. Appa Row Campus, Nuzvid. I acknowledge the help provided by the ministerial staff of Department of Chemistry, Dr. M.R. Appa Row Campus, Nuzvid.

I owe a deep debt of gratitude to Koti Reddy & Dr. Shakunthala (IICT, Hyderabad, India) and Kavitha Madam (DMSRDE, Kanpur, India) who provided FTIR, SEM, EDAX, XRD and TGA analysis. I would like to thank my colleagues, Dr. Chakrapani and Dr.B.V. Rajeswara Reddy, for their continuous help throughout the research. I am very thankful to members of my family for their precious help.

D.K. Srinivas and G. Narasimhulu have helped me in the collection of literature and I cherish their friendship.

My sincere thanks to BARC, NFC, Hyderabad for performing BET surface area analysis.

Ch. Suresh Babu
