Acknowledgements

It is a matter of great pleasure to express my profound gratitude and indebtedness to my Supervisor Dr. R.A. Singh for his strong motivation, constituent care and untiring guidance all through the progress of this work. Also, his endless support and freedom have allowed me to search for the new areas in science.

I am heartily thankful to Prof. K.K. Saraf, Head, Department of Physics and Electronics and Prof. M.S. Tiwari, former Head, Department Of Physics, Dr. H.S. Gour University, Sagar (MP) for providing me all the necessary facilities for the research work.

Thanks to Dr. Y.P. Singh for the constant help with the computer problems and calculations and above all moral support.

Thanks to Prof. Bhartiam, NIPER Mohali (PB) for providing Computer Software and Guidance for carrying out Calculations.

Here I would like to thank Prof. M.D. Kharya, Dept. of Pharmaceutical Sciences (SAGAR) for constant motivation for carrying out my research work.

My work would have gone unrecognized if I ignore the help offered by my friends Dr. Sandhya Patel, T. Datta and Mr. Vipin Pandey.

Thanks to all the staff of Department Of Physics, Dr. H.S. Gour University, Sagar (MP) for their cooperation in all respects.

There are certain people to whom words are not sufficient to express feelings for them. It is mere a formality because what they have done for me is inexplainable. Among such persons are adorable and most respectful my mother in law Smt Surinderpal Kaur, my father in law Dr. Sukhdev Singh Mann, grandmother Smt Surjit Kaur and my parents Smt Surjit Kaur and S. Narotam Singh Chahal.
I want to thank my husband Avinder Singh Mann who showed me a great will of strength which has been inspiration to me.

Special thanks to Son Garry Mann for his support and patience and who will no doubt see me slightly more often now.

My heartily thanks to M/s Network Computers for their timely compilation of work.

Lastly, but not the least thanks to all the persons who are unnamed and who directly or indirectly provided support and information.

(Jasvir Kaur)
