ACKNOWLEDGEMENT

As a matter of eternal compliance, above all, I would like to thank soulfully, the 'Almighty God' who bestowed me with his blessings to accomplish this endeavour.

First of all I wish to acknowledge the permission granted by Head, Department of Microbiology, M.D. University, Rohtak for allowing me to continue my previous work after the transfer of my supervisor from BIT Mesra to MDU, Rohtak.

I owe my heartfelt sincere gratitude to my supervisor, Dr. Pratyoosh Shukla, Associate Professor, Department of Microbiology, MDU, Rohtak for all his advice, support, guidance and encouragement. Thanks for sharing your vision and all the scientific discussion and seminars we had. Words could not express my indebtedness to you sir.

I express my sincere gratitude and thanks to Dr. Rajib Bandopadhyay, Dr. Kunal Mukopadhyay, and Head, Department of Biotechnology, Birla Institute of Technology, Mesra, Ranchi for providing facilities and sincere support during the initial 3 years of my Ph.D. work. The studies completed at CRURRS and BIT Mesra were very supportive for me.

Most humbly and respectfully I wish to express my profound sense of gratitude to my Co-supervisor Dr. Mukund Variar, Principal Scientist and Officer-in-charge, Central Rainfed Upland Rice Research Station (CRRI), Hazaribag for his valuable suggestions and providing all the necessary facilities. He instilled in me the confidence to develop my own research through his constant encouragement and constructive criticism.

I express my sincere gratitude and thanks to Dr. N.P. Mandal, Principal Scientist, Genetics and Plant Breeding and Dr. Dipankar Maiti, Principal Scientist, Plant Pathology, Central Rainfed Upland Rice Research Station (CRRI), Hazaribag for all their support and guidance. Their kind nature and friendly behavior helped me immensely during my Ph.D. work.

Words fail me in expressing my sincere thanks to my friends, colleagues, seniors, juniors and well wishers who were involved in this work directly or indirectly. I hereby extend my sincere gratitude and appreciation to all of them who made this thesis possible.

A special tribute of gratitude goes to my lab mates Shamshad, Nancy, Alpana, Nitin, Syed and Dewanand for their supportive hearts and made it a convivial place to work. I would also like to acknowledge my co-research scholar Punit, Ruby, Mahek, Sanjeev and Rameshwar for all their allround cooperation and help. I extend my sincere thanks to all the field operators in CRURRS especially Anil and Birendra for helping me throughout the work.

The work would not have been materialized without the constant support, moral as well as intellectual, of my beloved wife Monira, who equally contributed in the venture.

Words could not extend my deep sense of gratitude to all my family members. I would like to thank my father, mother, brother and sister for their constant inspiration, motivation and prayers. Their sustained encouragement and effort made me to reach here. I would like to thank my in-laws for their motivating words and immense love.

Last but not the least, I respectfully dedicate this thesis to my parents.

JAHANGIR IMAM
