I express my pronounced gratitude to my guide Dr. K. C. Patel, M. Sc., Ph. D., Professor, Department of Chemistry, Veer Narmad South Gujarat University, Surat, for his perceptive guidance seasoned with intellect, constructive criticism, unstinted and profiled encouragement that enabled me to achieve the present goal. Working with him has been a rare privilege and a matter of great pleasure for me. His inspiring guidance, everlasting enthusiasm and parental care have been invaluable assets throughout the tenure of my research work without which the dissertation would not have appeared in the present shape.

I take this opportunity to express my thanks to Dr. P. Bahadur, Professor and Head, Department of Chemistry, V. N. S. G. University, Surat, for providing facilities from time to time.

I thank the teaching and non-teaching staff of the Chemistry Department for their kind co-operation.

My special thanks are due to my senior researchers Dr. Paresh Patel, Dr. Kalyash Mehta, Dr. Divyesh Patel, Dr. Shreyas Patel, Dr. Lina Patel, Dr. Jigisha Modi, Dr. Himanshu Patel and Dr. Shahrukh Asundaria.

My warm thanks are due to my research colleagues Piyush, Yaxesh, Vikunjana, Navnit, Mohsin, Divyanshu, Mayank, Vivek, Sunil, Mimansha, Dipali, Bhavesh, Jignesh, Neeraj, Sarvil, Faizy, Paresh, Suresh and Vijay for providing me invariable support during my research work.

Who in this world can entirely and adequately thank the parents who have given us everything that we possess in this life. The life itself is their gift to us, so I am at loss of words in which to own my most esteemed father Shri. Manilal Patel, my loving mother Smt. Champaben Patel, my sister Karuna Patel and Vaishali P. Patel, my Jijaji Prafulbhai C. Patel, my nephew Kevin and all relatives. However I assure them to be worthy of whatever they have done for me.

(Yogesh M. Patel)
