ACKNOWLEDGEMENTS

In the course of my research work, a number of persons have given me help, guidance and encouragement in various ways and I will be failing in my duty if I don’t acknowledge the help and guidance, while I am completing my research work now.

First of all, I acknowledge with deep gratitude the advice and guidance given to me, by my research Guide Prof. S.L. Belagali, Chairman, Department of Studies in Environmental Science, University of Mysore, Mysore. It is he who suggested me the topic for research and prepared an outline plan for the project. He offered me necessary guidance from time to time. I owe a deep sense of gratitude for all his help and encouragement in completing my research work.

Prof. V. Keshavan, Retired Head of the Department of Chemistry, RIE Mysore has been very helpful to me while I was carrying out this work. Whenever any problem came up, I used to consult him and he gladly gave the valuable suggestions and helped me to find the solutions. So, I express my profound thankfulness to him for all his help and guidance throughout my research work.

I express my heart felt thanks to the former Principal of RIE and present Joint Director, NCERT, New Delhi, Prof. G. Ravindra, for granting me the permission to carry out my research work along with my employment in Regional Institute of Education, Mysore.

I also thank the present Principal Prof. G.T. Bhandage, RIE Mysore, Dean of Instruction Prof. B.S. Raghavendra and Head of the Department of Chemistry Prof. G.R. Prakash for the encouragement to do my research work in RIE Laboratory.

It was Prof. Jaishree Sharma, Former Head of the Department of Chemistry, RIE Mysore and presently in NCERT, New Delhi, first instilled in mind the idea of working for Ph.D. and I profusely thank her for timely encouragement.

I thank Mr. Jose Kodiyan, Chief Technician, Kuwait University, Kuwait, and Dr. Preethi Aghalayam Associate professor, IIT, Bombay and Dr. Vyas, Dr. Reddy’s Laboratory, Hyderabad for helping in getting the IR, $^1$H NMR and
Mass spectra of my samples. Dr. J. Arunachalam, Head, National Center for Compositional Characterization of Materials (CCCM), Hyderabad, for extending me necessary help for the analysis of effluent samples by AAS method.

I express my gratitude to executives of Marc Batteries, Tritan Valves, Glotronics and Alcoats Industries of Mysore for giving me Industrial effluents for the sake of analysis.

I thank Mr. S.U. Krishnaprasad and Mrs. R. Geetha, my friends in RIE for giving me all moral support, encouragement and timely help while doing my research work. My fellow research friends of Chemistry department in University of Mysore, Dr. Hema Kumar, Mr. Anil Kumar, Ms. Chaithanyalakshmi, helped in getting IR spectra for my samples, I express my sincere thanks to them also. I thank my friends in the Chemistry department at RIE, S.N. Prasad, Mahadev and R. Mara for their timely help whenever required.

I thank my friends in Environmental Science Department, University of Mysore, Dr. Manjula, Dr. Suresh, Dr. Pramod Pai, Dr. Oinam Jayalakshmi Devi, Dr. Smita Bhat and Dr. Padmanabha, for their encouragement and necessary help during the course of my work. I also thank other research colleagues Mr. Rajanna A.H, Ms. Shyamala.D.C, Ms. Divya J. and Ms. Geetha, for their encouragement.

I express my heart felt thanks to the staff members of the Libraries of the University of Mysore, RIE Mysore and CFTRI, Mysore for giving me the necessary library facility as and when required for my work.

I thank Mr. B. K. Venkatesh, Mysore, who provided a neat projective cover for the thesis and made it presentable.

Last, but not the least, I express my heartfelt thanks to my Parents Prof. K. Raghava Bhat, Mrs. Sunanda R. Bhat, Brother Mr. K. Prashanth Kumar, Sister Dr. K. Sowmya, Husband Mr. Shivaprasad K. and Son Master Ashwin Kumar K., for all their encouragement and moral support to complete this research work.

Shanthalakshmi K.
