CONTENTS

CHAPTER-I:

INTRODUCTION 1–17

Concept and Strategies for planned development, objectives of the proposed study methodology, identity of the micro regional unit Rohtak District.

CHAPTER-II:

PHYSICO CULTURAL LANDSCAPE 18–57

I Physical Landscape:
Structure, Relief, Drainage, Climate, soil and waterbodies, and Vegetation.

II Cultural Landscape:
Population, Settlement, Economic Activities, Transport Infrastructure.

CHAPTER-III:

AGRICULTURAL DEVELOPMENT 58–104

The land use and capability of land, cropping pattern, temporal and spatial, temporal variations in agricultural production, input-output ratio, agricultural infrastructure, spatial disparities in agricultural development, assessment of surplus of agricultural production and its flow-marketable and marketed, development potentials.

CHAPTER-IV:

INDUSTRIAL DEVELOPMENT 105–119

Existing industrial structure, locational factors-environmental, technological and institutional, large scale, small scale and cottage industries, optimal allocation of industrial locations, industrial location-resource & need based development potentials.
CHAPTER-V:
FUNCTIONS AND CENTRAL PLACES 120–149
Types, distribution, spatial pattern of functions and services, weightage and aggregation, composite ranking & hierarchy.

CHAPTER-VI:
TRANSPORT SYSTEM FOR DEVELOPMENT 150–163
Existing reticule of roads and railways, connectivity, accessibility, movement of passengers, movement of goods, optimality of transport system, requirements, potentials and proposals.

CHAPTER-VII:
STRATEGY FOR PLANNED DEVELOPMENT 164–188
Identification of planning unit, growth center concept, identification of growth centers, hypothetical model of growth centers, urban-rural integration, future planning and prospects.

CHAPTER-VIII:
SUMMARY AND CONCLUSION 189–202
BIBLIOGRAPHY i-x
APPENDICES I-III
