ACKNOWLEDGEMENTS

The author expresses his indebtedness and deep sense of gratitude to Dr. S.S. Nigam, Ph.D. (Sagger), Ph.D. (London), D.I.C., F.R.I.C., F.N.A.Sc., for his guidance, encouragement and supervision during the course of these investigations and to Professor A.K. Bhattacharya, D.Sc., F.N.A.Sc., F.R.I.C., Head of the department of Chemistry, for providing laboratory facilities and his keen interest in the progress of the work.

Grateful acknowledgement is also made to Drageco Ltd., Holzminden, West Germany for supplying authentic specimens of terpenic compounds and to the Council of Scientific and Industrial Research for the award of a junior fellowship which enabled the author to undertake this work.
