ACKNOWLEDGEMENTS

The author expresses his deep sense of gratitude to Dr. S. S. Nigam, Ph.D. (Saugar), Ph.D. (London), D.I.C., F.R.I.C., F.N.A.Sc., under whose guidance the work has been completed. Thanks are also due to Professor A.K. Bhattacharya, D.Sc., F.R.I.C., F.N.A.Sc., Head, Department of Chemistry, University of Saugar for providing laboratory facilities for the investigations.

Thanks are further due to Dr. K.K. Chakravarti (In-charge Essential Oil Division) and Dr. C.R. Narayanan of the National Chemical Laboratory, Poona, for providing facilities for gas-liquid chromatography, ultra-violet, infra-red, nuclear magnetic resonance spectroscopy, mass spectrometric determinations and micro analyses.

Last but not the least grateful thanks are due to the Council of Scientific and Industrial Research, India for the award of a junior fellowship and to the Education Department, Government of Madhya Pradesh, for providing study leave which enabled the author to undertake the work.
