Acknowledgements

I am highly indebted to “Almighty” enabling me to reach this destination.

Words at my command are simply inadequate to express my sincere thanks and profound gratitude to my supervisor Dr. Anu Kumar Sharma, Department of Zoology, Govt. Dungar College, Bikaner, for his invaluable guidance, liberal attitude and encouragement during my research work. In fact, to work with him was a pleasurable, enriching and memorable experience of my life and I take this opportunity to pay my sincere thanks and best regards to him. I am thankful to my Co-supervisor, Dr. Vikas Gupta, Department of Biotechnology, D.A.V College, Amritsar and Dr. Neeraj Gupta Department of Zoology, D.A.V College, Amritsar for their continuous guidance, support and encouragement that made the compilation of my research work possible.

I am especially grateful to Dr. S.P.S Virk for the stimulating discussions,

My sincere thanks also go to my friend Mr. Roshan Bedi and all labmates for their fondness and co-operation for providing a stimulating and fun environment which encouraged me to work hard during all the time of disappointments. The sleepless nights we worked together and for all the fun we have had in the last years. I also owe my thanks to those who have been a part of my life but I failed to mention.

I cannot ever depict the indebtedness to my parents and Brother as they have always backed me in every situation, without their encouragement and moral support this would not have been easy. I owe my special thanks to my wife Parminder Kaur who always stood by me with her moral and emotional support. A small little thank is reserved for my son Jaideep Singh for letting me compile this thesis even at night sometimes.

(Gurjeet Singh)
