2.8 Comparing Models of Emotional Intelligence.................................21
2.9 Emotional Intelligence and Personality........................................21
2.10 Measuring Emotional Intelligence.............................................22
2.11 Conclusion.........................................................................................23

CHAPTER 3: APPLICATIONS OF EMOTIONAL INTELLIGENCE:

LITERATURE SURVEY...........................................................................25

3.1 Applicability of EI in Every Day Life...............................................25
3.2 Emotional Intelligence in Workplace..............................................26
3.3 Emotional Intelligence in Conflict Management...............................27
3.4 Emotional Intelligence in Stress Management.................................28

3.4.1 Emotions and Stress.......................................................................28
3.4.2 Consequences of Occupational Stress.........................................29
3.4.3 Factors of Occupational Stress....................................................30
3.4.4 Research Literature showing Relationship between
    Emotional Intelligence and Occupational Stress..............................32

3.5 Emotional Intelligence in Decision Making.....................................33

3.5.1 Emotions as Antecedents and Consequences of Decisions.............34
3.5.2 Emotions in Ethical Decisions and Morality.................................36

3.6 Emotional Intelligence and Job Satisfaction....................................36

3.7 Emotional Intelligence and Job Performance.....................................37

3.8 Different Jobs Require Different Levels of EI and
    Different EI Competencies..............................................................39

3.9 Conclusion.........................................................................................41

CHAPTER 4: EMOTIONAL INTELLIGENCE IN ACADEMIA:

LITERATURE SURVEY...........................................................................43

4.1 Role of EI in Teaching and Learning................................................43

4.2 Anxiety among Medical and Engineering Students..........................45

4.2.1 Anxiety: Definition and Perspectives..........................................45
4.2.2 Symptoms of Anxiety.................................................................46
4.2.3 Causes of Anxiety among Students..............................................46

4.3 Academic Achievement...................................................................46

4.4 Optimism: an Essential EI Competency for Students.......................47
5.4 Scope of the Study.................................................................68
5.5 Research Design ...............................................................69
5.6 Research Framework .........................................................70
5.7 Population..........................................................................71
5.8 Sampling Frame..................................................................71
      5.8.1 Sampling Method for Selection of Colleges for Data Collection ....71
      5.8.2 Sampling Method for Selection of Students and Faculty Members for
            Data Collection ................................................................71
      5.8.3 Sample Size ................................................................72
5.9 Sources and Methods of Data Collection.................................72
      5.9.1 Secondary Data .................................................................72
      5.9.2 Primary Data ................................................................72
      5.9.3 Procedure for Primary Data Collection .................................73
      5.9.4 Demographic Characteristics of the Participants .......................74
5.10 Research Tools ....................................................................75
5.11 Analytical Methods ..............................................................79

CHAPTER 6: RESULTS AND FINDINGS.............................................80
6.1 Results of Students Study ......................................................80
      6.1.1 Objective 1: Assessment of Anxiety among Medical and
            Engineering Students .........................................................81
      6.1.2 Objective 2: Examining the Relationship between Anxiety, Optimism,
            Achievement motivation and Academic achievement among students ....82
      6.1.3 Objective 3: Assessment of Achievement Motivation Factors and their
            Relationship with Academic Achievement ..................................84
      6.1.4 Predictive Significance of Achievement motivation Factors for
            Academic achievement ..............................................................85
6.2 Results of Faculty Study ........................................................86
      6.2.1 Objective 4: Assessment of Occupational Stress and its Factors among
            Faculty Members ..................................................................88
      6.2.2 Predictors of Occupational Stress among Faculty Members ..........89
      6.2.4 Objective 5: To assess EI & its Competencies among Faculty Members ....90
      6.2.5 Analysis of Variance and Predictive Value of EI Competencies
            Contributing towards overall EI ...................................................92
6.2.6 Objective 6: To explore the Relationship between EI, Occupational Stress and Teacher Effectiveness (both self-reported and students-rated).........................92

6.2.7 Objective 7: To explore the Relationship between EI Competencies and Occupational Stress ..........................................................94

6.2.8 Predictive Significance of EI Competencies towards Occupational Stress.....94

6.2.9 Objective 8: To explore the Relationship between EI Competencies and Teacher Effectiveness.......................................................95

6.2.10 Predictive Significance of EI Competencies for Teacher Effectiveness.......96

6.3 Secondary Objectives..............................................................................98

6.3.1 Secondary Objective 1: To notice if there is any correlation or difference between Self-reported and Students-rated Teacher Effectiveness..........98

6.3.2 Secondary Objective 2: To observe if there is any difference in EI, Occupational Stress and Teacher Effectiveness between Medical and Engineering Faculty Members...........................................99

6.3.3 Secondary Objective 3: To find if there is any Gender Difference in EI, OS and Teacher Effectiveness among Faculty Members of Medical and Engineering Colleges .................................................100

6.3.4 Secondary Objective 4: To find if there is any gender difference in Anxiety, Optimism, Achievement motivation & Academic achievement among Medical and Engineering Students ........................................101

6.3.5 Secondary Objective 5: To observe if there is any difference in Anxiety, Optimism, Achievement motivation & Academic achievement between Medical and Engineering Students.........................................103

CHAPTER 7: DISCUSSION.................................................................................104

7.1 Discussion of Students Study.................................................................104

7.1.1 Anxiety and its Relationship with Academic Achievement...............104

7.1.2 Relationship between Anxiety, Optimism, Achievement Motivation and Academic Achievement.......................................................104

7.1.3 Achievement Motivation Factors and their Relationship with Academic Achievement...........................................................................105

7.2 Discussion of Faculty Study.................................................................107

7.2.1 Occupational Stress and its Factors among Faculty Members........107

7.2.2 Level of EI & its Significant Competencies among Faculty Members......110
7.2.3 Relationship between EI, Occupational Stress & Teacher Effectiveness .......................... 110
7.2.4 Specific EI Competencies for Managing Occupational Stress .............................. 111
7.2.5 Specific EI Competencies Influencing Teacher Effectiveness ............................ 113

7.3 Discussion of Secondary Objectives ......................................................................... 115

7.3.1 Difference between Self-Reported and Students-Rated Teacher Effectiveness:
   Need for Direct Feedback ............................................................................................ 115

7.3.2 Difference in Emotional Intelligence, Occupational Stress and Teacher
   Effectiveness between Medical and Engineering Faculty Members ..................... 116

7.3.3 Gender differences in Emotional Intelligence, Occupational Stress and
   Teacher Effectiveness among Faculty Members ...................................................... 118

7.3.4 Gender differences in Anxiety, Optimism, Ach-mot and Academic
   Achievement among Medical and Engineering Students ........................................ 121

7.3.5 Difference in Anxiety, Optimism, Achievement Motivation and Academic
   Achievement between Medical and Engineering students .................................... 123

7.4 Conclusion ............................................................................................................. 123

CHAPTER 8: EI TRAINING PROGRAMME: RESEARCH LITERATURE ................. 125

8.1 Teaching Emotional Intelligence ............................................................................ 125

8.2 Avenues for Training ......................................................................................... 126

8.3 Models of EI Training Programme ...................................................................... 126

8.4 EI Training Programmes and their Effectiveness .............................................. 128

8.4.1 Mastering Emotional Intelligence Program (MEI) ........................................ 128
8.4.2 The Emotional Competence Training Program .............................................. 129
8.4.3 Customized Leadership Development Program ............................................ 130

8.5 Teaching Awareness of specific EI Competencies ............................................. 131

8.5.1 Empathy Training ............................................................................................ 131
8.5.2 Anger Management ........................................................................................ 132
8.5.3 Conflict Management Training ....................................................................... 133

8.6 Effect of EI Intervention Programme on Employee Efficiency ....................... 133

8.7 Effectiveness of EI Training Programme in Academia .................................. 134

8.7.1 EQ Curriculum for Teachers: An EQ In-service Program for
   High School Teachers ......................................................................................... 134
8.7.2 EI Training Programme by Lisa Gardner ....................................................... 135
8.7.3 Research Projects Investigating Effectiveness of EI Training in
Teaching and Learning.........................................................................................135

8.8 Main EI Skills to be Focussed in EI Training Programme.........................136
  8.8.1 Emotional Recognition and Expression.............................................136
  8.8.2 Emotional Management or Regulation of Emotions..........................137
  8.8.3 Emotional Control & Emotional Stability.........................................138
  8.8.4 Reflective Practice: Reflection before Reaction................................138

8.9 Conclusion...............................................................................................139

CHAPTER 9: PROPOSED EI TRAINING PROGRAMME FOR
FACULTY MEMBERS.......................................................................................140

9.1 Training Aspects......................................................................................140
9.2 Duration of the Programme......................................................................141
9.3 Specific Learning Goals...........................................................................141

9.3 EI Training Modules................................................................................142
  9.3.1 Session 1: Awareness about EI.......................................................142
  9.3.2 Session 2: Significance of EI in Future Success..............................147
  9.3.3 Session 3: Role of EI in Work Place..............................................150
  9.3.4 Session 4: EI in Teaching-Learning Process.................................152
  9.3.5 Session 5: Training for EI Competencies........................................160
  9.3.6 Session 6: Dealing with Students..................................................167

9.4 Conclusion...............................................................................................171

CHAPTER 10: PROPOSED EI TRAINING PROGRAMME FOR
STUDENTS.....................................................................................................173

10.1 Introduction to the Programme.............................................................173
10.2 Specific Learning Goals for Each Session............................................173

10.3 Training Module......................................................................................174
  10.3.1 Session 4: EI in Learning...............................................................174
  10.3.2 Session 5: Learning EI competencies............................................181

10.4 Conclusion...............................................................................................184

CHAPTER 11: CONCLUSIONS, RECOMMENDATIONS, LIMITATIONS AND
FUTURE SCOPE............................................................................................185

11.1 Conclusions............................................................................................185
11.2 Recommendations...................................................................................189
11.3 Limitations........................................................................................................191
11.4 Future Scope and Suggestions...........................................................................192
