ACKNOWLEDGEMENTS

I am greatly indebted to Professor D.R. Bhawalkar, M.Sc., Ph.D. (London), Head of the Department of Physics, University of Saugar for suggesting the problem, guidance, constant encouragements and for the discussions I had with him during the period of my research. I am also thankful to the University Grants Commission, New Delhi, for the award of a research scholarship which made it possible to carry out these investigations, to the Angelo Brothers, Calcutta, for supplying the Shellac wax, to the INSDOC service of the Government of India, for promptly supplying very good photostat copies of some of the reference papers which were not available at the University of Saugar.

SAGAR,
18th July 1960
