CONTENTS

PREFACE

1. INTRODUCTION
   1.1 General
   1.2 Survey of color centers with impurities
   1.3 Theme and scope of the present work
   References

2. MOBILITY AND THERMAL DISSOCIATION ENERGY
   OF F-CENTERS
   2.1 Introduction
   2.2 Review of the previous work
   2.3 Relation between mobility and thermal
dissociation energy
   2.4 Experimental details
   2.5 Results and Discussion
   References

3.A ELECTRONIC AND IONIC PHENOMENA DURING
   ELECTROLYTIC COLORATION
   3A.1 Introduction
   3A.2 Experimental Procedure
   3A.3 Results and Discussion
   References

3.B SPACE CHARGE LIMITED CURRENT (SCLC)
   MEASUREMENTS
   3B.1 Introduction
   3B.2 Theoretical treatment
4. OPTICAL ABSORPTION AND THERMOLUMINESCENCE
STUDIES ON KCl AND KCl:Na CRYSTALS

4.1 Introduction
4.2 Experimental details
4.3 Results
  4.3.1 Optical absorption studies
  4.3.2 Thermoluminescence
4.4 Discussion
  4.4.1 Optical absorption
  4.4.2 Thermoluminescence

References

5. OPTICAL AND THERMOLUMINESCENCE
KCl:Na:Pb CRYSTALS

5.1 Introduction
5.2 Experimental details
5.3 Results and discussion

References
