ACKNOWLEDGEMENTS

It gives me a great pleasure to express my deep sense of indebtedness to my Supervisor, Dr. J.L. Thakar, Reader, Department of Physics, Dr. H.S. Gour Vishwavidyalaya, Sagar (M.P.) for his inspiring guidance, valuable advice and constant encouragement all through the progress of this work.

I also acknowledge my heartfelt gratitude to Prof. S. Sivaraman without whose valuable guidance and scholarly discussion the work would not have been possible.

I am highly obliged to Prof. R.K. Shrivastava and Prof. A.P. Srivastava, Prof. and Head, Department of Physics, Dr. H.S. Gour Vishwavidyalaya, Sagar (M.P.) for providing all facilities during the course of the work.

My sincere thanks are due to Shri B.N. Tiwari, S.S.O., U.S.I.C., Sagar and Dr. R.K. Pandey for many helpful suggestions.

I am thankful to Dr. V.B. Agnihotri, Director, F.S.L., Sagar for his kind permission to use the facility for absorption study in his laboratory.

It is a pleasure to express my grateful appreciation to my colleagues, Shri K.C. Sharma, Shri W.T. Lall, Shri M.N. Bapat and others for their valuable cooperation.

I am also grateful to Dr. K.I. Vasu, Director, Central
Electrochemical Research Institute, Karaikudi (Tamilnadu) for giving me an opportunity to present a paper in the Symposium at the institute.

I express my thanks to Shri G.S. Shukla for his careful typing and to Shri Prem Swaroop, Foreman, University Workshop for technical help.

Finally it is my duty to record my gratitude to the U.G.C. for the award of Teacher Fellowship, under the Faculty Improvement Programme and to the Education Department, Govt. of M.P. for the grant of study leave to enable me to undertake this work.

(M. C. AWASTHI)
