ACKNOWLEDGEMENTS

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of several years of work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

First of all, I would like to thank almighty God, the supreme power, whose blessing is always with me to take up any challenging task in my life.

I gratefully acknowledge my deep sense of gratitude to my supervisor Dr. P.K. Suri, who, in the first place, initiated me to start the present work and thereafter guided this work all along to its completion. I have known him as a principle-centered person. His enthusiasm and integral view on research has made a deep impression on me. I owe him lots of gratitude for having me shown this way of research.

I would like to express my sincere gratitude to my co-supervisor, Dr. Rakesh Kumar, for his guidance and inspirational presence throughout the work of this thesis. This thesis would not have been possible without his patience, continuous guidance and support. His vast experience and knowledge made the work really enjoyable and highly enriching. I thank him for being such a wonderful advisor and mentor.

I would like to thank Dr. Shuchita Upadhyaya, Chairperson, Department of Computer Science & Applications, Kurukshetra University, Kurukshetra, for motivating and encouraging me time to time.

I am also thankful to all my colleagues, who have always shown a willingness to help me all along. Their valuable suggestions during the preparation of my thesis work helped me a lot. My special thanks to Mr. Girdhar Gopal for his constant help and moral support.

I am thankful to my father and my better half for their unabated support and helping me out in all those moments, which necessitated a moral boost to ward off any slackness on my part. My sincere appreciations are due to my children for sparing me time to complete this work at the cost of their comforts.

(Pardeep Kumar)
