ACKNOWLEDGEMENTS

I take the opportunity of expressing my deep sense of gratitude to Dr. V.K. Saxena M.Sc (Agra), D. Phil. (Alld.) F.I.C. Asstt. Professor, department of chemistry, University of Saugar, Sagar who supervised my work. It was due to his painstaking guidance that I was able to finish my work in time.

The deepest sense of gratitude is also expressed to Prof. S.S. Nigam, Ph.D. (Sagar), Ph.D. (London) D.I.C., F.R.I.C., F.M.A.Sc, Head of the department of chemistry, University of Saugar, Sagar for providing, in addition to laboratory facilities, his valuable suggestions and encouragement without which the work could not have achieved its present form.

I am also thankful to M/s Fritz Bros., Inc., New York for supplying authentic specimens of terpenic compounds for the investigation.

I am also indebted to Dr. B.B. Lal M.A. Ph.D., D.Litt, Principal, D.V. (Post Graduate) College CRAI and Shri S.K.Nigam Chemist, Radio Nuclear Corporation MASS-U.S.A. who have directly encouraged me to undertake this work.

I also record my deep sense of gratitude to my wife Smt. Premlata Nigam who spared no effort to aid me.

The author is also thankful to Shri M.C. Mishra for skilful typing of the thesis.

In the end my sincere thanks are due to the University Grants Commission New Delhi for the award of Teacher Fellowship which enabled me to complete the present investigation.
