ACKNOWLEDGEMENTS

The author wishes to express his indebtedness and deep sense of gratitude to Dr. R.M. Purohit, M.Sc., Ph.D., for his guidance, supervision and encouragement throughout the progress of these investigations.

The author also records with gratitude the ingenuity of his teacher Professor S.S. Nigam, M.Sc.(Alld.), Ph.D.(Sagar), Ph.D.(Lond.), D.I.C., F.R.I.C., F.N.A.Sc., Head, Department of Chemistry, University of Sagar, for his ready availability, constructive criticism, valuable advice and providing necessary facilities during the course of this work, but for which the work would have been a success.

Grateful acknowledgements are due to Dr. Mityamand, Scientist-in-Charge, Medicinal Chemistry Division, C.D.R.I., Lucknow, for providing the facilities for GLC, U.V., I.R., and Micro-analysis studies and the Director, N.C.L. Poona, Director, Hoffkin Institute Bombay and Head of the Department of Botany, University of Sagar, for providing the different strains of micro organisms for microbiological assay.

Last but not the least, grateful thanks are due to Shri. M.K. Chattopadhaya, M.Pharm, for his lively discussions and help in the microbiological work.
