Acknowledgements

While scripting this piece I am slightly nostalgic and missing my father late Shri Layak Ram ji, who always wished, desired, dreamt and encouraged me to take doctoral studies. But due to some circumstances I could not pursue it during his stay on planet earth. I dedicate all of my attainments whatsoever, to him. It was his indomitable spirit that steered to establish a school to get his physically challenged son educated at our native place where there was no trace of school, hospital, electricity, road or telephone. Though he left for his heavenly abode on 25th October 2005 but I still feel that he is around me to guide me to face the challenges of life.

First among others; I wish to express my deep sense of gratitude to my research guide Dr R N Malviya without whose constant and kind support, guidance and encouragement, this study would have not been completed. It was his keen personal interest and invaluable efforts that helped me complete this study earlier.

I am thankful to all the officers and officials of various departments including of my colleagues in Delhi Transco Limited, who extended unrestricted support as well as provided required information, data and other records. I also express my heartfelt gratitude to the people who were part of this research and helped me get insight of the unexplored areas.

I am also thankful to the management, research coordinator, and other staff of Shri Jagdishprasad Jhabarmal Tibrewala University for their kind cooperation and support at every stage of this study.
It would be unfair if do not recall the constant support of my friends specifically Shrimati Madhu Malti Videh and Shri Rahul Sharma who have been with me all this period.

Finally, I am indebted to my beloved mother Smt. Asharfi Devi, my wife Poonam Chaudhary, my siblings and other family members for their unconditional love, support, cooperation and encouragement throughout my study.

(Rishi Raj)
