
LIST OF TABLES

TABLE NO.	DESCRIPTION	PAGE
1.	Mean, Range and SD of age, height and weight of the subjects	50
2.	Mean and SD of the pre and post test data of fitness variables and their comparison.	53
3.	Mean and SD of the pre and post test data of formal activity and their comparison	59
4.	Mean and SD of the pre and post test data of rhythmical activity rating scores and their comparison.	60
5.	Mean and SD of the pre and post test data of the individual activity and their comparison.	63
6.	Mean and SD of the pre and post test data of the group activity and their comparison.	66
7.	Mean and SD of the pre and post test data of physiological variables and their comparison.	70
8.	Mean and SD of the pre and post test data of psychological variables and their comparison.	78
9.	Mean and SD of the pre and post test data of psycho-physiological reactivity and their comparison.	86

10. Coefficient of correlations
(Pre test r values) between
dependent (fitness) and independent variables 89
11. Coefficient of correlations
(Post test r values) between
dependent (fitness) and independent variables. 90
