ACKNOWLEDGEMENTS

The author extends her heartfelt and deep sense of gratitude to Professor S.S.Nigam, M.Sc. (Allahabad), Ph.D. (Saugar), Ph.D. (London), D.I.C., F.R.I.C., F.N.A.Sc., Head of the Department of Chemistry, University of Saugar, Sagar (M.P.) for according the necessary facilities during the conduct of this work. Thanks are owed to him for his exhortations and encouragements throughout the period of this investigation.

The author deems it great pleasure in expressing her profound sense of gratitude and indebtedness to Dr. V.K.Saxena, M.Sc. (Agra), D.Phil. (Allahabad), F.I.C., Asstt. Professor, Department of Chemistry, University of Saugar, Sagar (M.P.), under whose esteemed guidance, the work has been completed. Author is highly obliged for his deep interest, timely suggestions, useful discussions and affectionate encouragements to perseue the problem.

Author would be failing in her duties if she does not express her appreciation and heartfelt obligation to:

(i) University of Saugar for the financial assistance afforded during her work.

(ii) All the colleagues and friends for their generous and substantial co-operation.

Lastly, but not the least, the author wishes to express her profound regards to her parents and husband (Dr. G.S.Grewer) whose inspirations made her to attain the completion of the work.
