ACKNOWLEDGEMENTS

I am highly indebted to my guide G.V. Subba Reddy, M.Sc., Ph.D., Professor and Head, Department of Chemistry, JNTUA College of Engineering, Pulivendula. Under whose constant supervision, meticulous guidance this work has been carried out in completion. I admire the most ultimate freedom he imparts me to put my desire and thoughts into practical work to complete this project. His ultimate simplicity of one voice speaking professional approach, harmonious and supportive nature was always teaching me new lessons during my Project work.

I owe a profound depth of gratitude to my Co-Guide K.N. Jayaveera, M.Sc., Ph.D. Rtd., Professor JNTU Anantapur, for his pains taking support, unremitting encouragement and supportive guidance throughout my thesis work. His valuable suggestions and keen interest throughout the work greatly eased my task and made it logical.

I take this opportunity with pride and enormous gratification to thank to my mother Syeda Rabia Basri and my father Syed Azam by devoting my pranam on their feet.

I am also thankful to my lovely brothers Syed Aslam and Syed Akram to built up my strength in every step of my life.

I thank my husband Syed Faiazuddin walking hand in hand during tough time and supporting in all means for my research work.
I express my profound gratefulness to N. Devanna, Professor, Director, Oil Technological Research Institute (OTRI) JNT University, Anantapuram, K.B. Chandra Shekar, Director, R&D, JNT University, Ananthapuram.

I am very much indebted and thankful to the management of Oil Technological Research Institute (OTRI).

I would like to express my heartfelt gratitude to my family members, friends for their constant encouragement, motivation and support.

(T Syeda Jeelani Basri)
