J.Dubey, A. Yadav and S. N. Limaye,
Hypersensitivity in in lanthanoids(III) and their L and J correlations.
Asian Chemistry Letters, 1999, 1(1) , 35.

**PAPERS CONTRIBUTED AT INTER-
NATIONAL/NATIONAL SEMINARS / SYMPOSIA**

1. Effect of Chelate ring size and their substitution on the intensity of Hypersensitive transitions of lanthanoid [Ln(III)] ions and their J-(Total) quantum number profiles : Nd³⁺ and Er³⁺ with O-N donor ligands.
J.Dubey, P.Pandey, A. Yadav and S.N.Limaye, O-31, p. 49.
National seminar on Recent Trends in Materials Science, Department of Physics, Sri Venkateshwara University, Tirupati,
2. In vitro studies on electronic and radiative parameters of lanthanoids in pyrazinamide environment
J. Dubey , P. Pandey, and S. N. Limaye,
POSTER – 31.
Indo-Russian Seminar on Trends in Chemical Sciences and Medicinal Chemistry and Bio-catalysis, Department of Chemistry, University of Delhi, Delhi.
3. pH Mediated Population Drift in the ⁷F₀,⁷F₁ Ground Levels of Eu (III)
Jitendra Dubey, Yogendra Sharma and Sudhir N. Limaye*
Indian Science Congress Association, 2001, Accepted.
4. Electronic spectral parameters and the radiative properties of Ln(III) ions in drug environments,
Jitendra Dubey, and Sudhir N. Limaye*
Annual Convention of Chemists, Indian Chemical Society, 2000, Accepted.
Ing. 50, 51.
