ACKNOWLEDGEMENTS

Any project begins as a dream or idea swirling about, as would a formless nebula. This dream came to fruition only with the inspiration and succor of my guide Dr. Rajbir Singh, Professor, Department of Psychology, M.D. University, Rohtak. I am deeply indebted to him for taking so many pains to help me at every step and enabling me in the successful completion of this study. I record a sense of respect and regards for his valuable, constructive and intellectual guidance and above all his proficiency in the subject. I shall forever consider it a privilege to have worked under him.
