PREFACE

A large number of research works relate stress or tension affects and other factors to various diseases. These are also supposed to suppress the immune response and make people more vulnerable to physical ailments such as cardiovascular diseases. In the present study an attempt has been made to study the effects of “Psycho-Social Factors Underlying Cardiovascular diseases”.

The inspiration for this study was given by Dr. NovRattan Sharma a beacon light for me who guided and encouraged me in this endeavor. He not only helped me in collecting relevant material but also acquainted me with the niceties and finer of the subject. My intellectual debt on him is gratefully acknowledged, because it was not possible to complete this work without his precious help and suggestions. He gave me mental support at the time of crisis.

I pay my sincere thanks and gratitude to Dr. (Mrs.) Sunita Malhotra, Professor and Head Department of Psychology, M. D. University Rohtak, for her frequent valuable suggestions. I also express my heart-felt gratefulness to Professor Rajbir Singh and Professor (Mrs.) Amrita Yadava Department of Psychology, M. D. University Rohtak, for their continuous encouragements. Further, I express my deep gratitude to all the teachers and non-teaching staff of the Department of Psychology, M. D. University Rohtak for their valuable co-operation.

I extend my sincere thanks to Dr. (Mrs.) Sushma Sharma, wife of my supervisor, for her warm support and blessings.

I am also indebted to Dr. Suraj Mal, Lecturer in Psychology, Vaish P.G. College Bhiwani whose valuable and benign support was conducive for me in completion of this challenging research work.

I am highly indebted to Dr. S.N. Sharma, Principal Vaish P.G. College, Bhiwani and Dr. O.D. Sharma, Principal B.L.J.S. College, Tosham for their unexhaustive and unforgettable motivation and blessings.

I extend my sincere thanks to Dr. Ashvani Sharma for his generous help.
I am also grateful to the library staff of the University for their co-operation in providing me the access to the pertinent literature both as well as electronic through internet facility.

I would like to express thanks to my parents and other family members who provided me healthy environment and ample time in completion of this research work without whose emotional support it would have been difficult to reach the end.

Last of all, I want to express my gratitude to all those participants who worked as subject for this work. I would also like to express my sincere thanks to owners of various nursing homes and authorities of civil hospital Bhiwani.

I wish to thank to all the authors and institutes whom I could not mention in particular, but anyway furthered the research work.
