CONTENTS

CHAPTER - I : INTRODUCTION
NATURE OF THE COMPOUNDS ISOLATED 1 - 28 29 - 30

CHAPTER - II: CHEMICAL INVESTIGATION OF THE STEM
OF ARGELE MARNELOS CORR. 31 - 84
- EXTRACTION AND ISOLATION OF
  THE COMPOUNDS 34 - 36

SECTION - I
Structural study of the
compound - A.
(Marin)
38 - 51

SECTION - II
Structural study of the
compound - B.
(1-hydroxy-6-methoxy-2-methyl-
anthraquinone)
52 - 69

SECTION - III
Structural study of the
compound - C.
(Umbelleferone-7-O-\(\alpha\)-L-rhamno-
pyranoside).
70 - 84

CHAPTER - III: CHEMICAL INVESTIGATION OF THE STEM
BARK OF SAPTUM EUGNIFOLIUM HAM. 85 - 125
- EXTRACTION AND ISOLATION OF
  THE COMPOUNDS. 86 - 87
SECTION - I

Structural study of the compound- A.
(Moretenone)

SECTION - II

Structural study of the compound- B.
Urs-3-O-acetyl-20(30)-ene-28-oic acid

SECTION - III

Structural study of the compound- C.
3-hydroxy-1, 6, 7-trimethoxy-2-methyl-anthraquinone .

CHAPTER - IV : CHEMICAL INVESTIGATION OF THE ROOTS

OF MORINDA CITRIFOLIA LINN. 126 - 142
- EXTRACTION AND ISOLATION OF
THE COMPOUNDS. 128
Structural study of the
compound 129 - 142
7-hydroxy-8-methoxy-2-methyl-
anthraquinone

CHAPTER - V : PART - A 143 - 147
- Antimicrobial activity of the
ethyl acetate extract of stem of AEGLE MARMELOS, Ethyl
acetate extract of stem bark of SAPUUM EUONIFOLIUM and
ethanolic Extract of roots of
MORINDA CITRIFOLIA.
SECTION I:
Antibacterial activity of the ethyl acetate extract of stem of
Anogeissus marmelos.

SECTION II:
Antibacterial activity of the ethyl acetate extract of stem bark of
Sapindus saponifolium.

SECTION III:
Antibacterial activity of the ethanolic extract of roots of
Morinda citrifolia.

SECTION IV:
Antifungal activity of the ethyl acetate extract of stem of
Anogeissus marmelos.

SECTION V:
Antifungal activity of the ethyl acetate extract of stem bark of
Sapindus saponifolium.

SECTION VI:
Antifungal activity of the ethanolic extract of roots of Morinda
citrifolia.
PART II

- Pharmacological activity of the ethyl acetate extract of stem bark of *Sapium sebifolium* and ethanolic extract of roots of *Morinda citrifolia*.

SECTION I:

Evaluation of Analgesic Activity.

SECTION II:

Evaluation of Local Anesthetic Effect.

SECTION III:

Evaluation of the Effect of Perfused Frog's Heart.

PART C:

ANTICANCEROUS ACTIVITY OF THE NEW COMPOUND, FUGNONE.

(3-hydroxy-1, 6, 7-trimethoxy-2-methylanthraquinone).
