ACKNOWLEDGEMENTS

First of all, I thank God almighty, for giving me the right directions at every juncture and for being with me throughout the research period. God acts through men and I take this opportunity to thank the key people who helped and supported me selflessly throughout this period.

My four years of research at the Saintgits Centre of Research, Saintgits College of Engineering, where I am an associate professor in the department of MBA, was not just a learning exercise, it was also a confidence building experience. My research guide, Dr. Roji George, was the moving spirit behind my transformation into a teacher and more particularly into a researcher. I thank him here.

My experience as a researcher has taught me the great lesson that we learn mainly not from books, but from those who create or inspire the creation of books. Out of them, the following persons deserve special mention for the way in which they mentored me. They are Dr. B. Niranjan Raj Urs of ICM, Kannur, Kerala; Dr. V.S. Kaveri of NIBM; Mr. K.C. Mishra (Retd.), G.M. of CAB; Dr. Samar K. Datta of IIM (A); Dr. S.N. Biswas and Dr. Pratik Modi of IRMA; Dr. Tushaar Shah, (Retd.) Director, IRMA and Mr. M. Nanda Kumar, DGM, Urban banks department, RBI. Questionnaire development process was initiated by six senior (Retd.) GMs of Kottayam district UCBS. I thank them all here. My field studies would not have succeeded without the whole hearted support and co-operation of the management and staff of the 22 UCBS of southern Kerala that finally participated. I thank Prof. P.C. John, Kottayam for the translation of the questionnaires into the vernacular language, Malayalam. I thank the management, the academic advisory council member, Dr. Thomas Chandy, all my fellow faculty members and the non-teaching staff of my institute for the moral support given to me during this time.

I thank my father, late Mr. K.C. George, for developing in me a passion for knowledge. I also thank my mother, Sosamma, for inculcating the habit of systematic study. This acknowledgment is incomplete without fondly remembering how my wife, Mini and daughter, Susan, aged ten years, put up with my frequent absences and irregular timings and cheered me all the way along when my mood flagged. I thank them last, but certainly not the least.
