ACKNOWLEDGEMENTS

"I thank you, Father, Lord of heaven and earth,
that you have hidden these things from the wise and
understanding and revealed them to little children"

(Matthew 11:25)

It is my pleasure to acknowledge each and everyone who have supported me during the progress of this work, and making this thesis possible. I thank you from my heart, whether or not your name is found below.

I would like to express my deepest gratitude to my supervising teacher Dr. Vincent Mathew, St. Thomas College, Pala, Kerala, and who has recently joined the Department of Physics, Central University of Kerala, Nileshwar, Kerala, for his invaluable guidance and unbelievable patience during the past few years. He is a constant source of new ideas and encouragement, and each interaction with him lead me to an exciting world of positive energy. You never got angry, and let me think precisely and analytically about the work. I am extremely grateful to you for providing unconditional moral and emotional support and enlightening inspiration, which will benefit my whole life. I would also thank Mrs. Joshmi Vincent and their children Mathew Vincent and Lizbath Vincent for their sincere love, care and prayers.

I would like to express my sincere thanks to Dr. K. K. Jose, Principal, St. Thomas College, Pala, for his continuous motivation, encouragement and affection. I also acknowledge Dr. Micheal Augustine, Head of the Department and the teaching faculty, and the members of the library and the laboratory staff of the Research & Post Graduate Department of Physics, St. Thomas College, Pala, for their timely support and help. My special thanks to Prof. M. S. Abraham, Former Head of the Department, for his fatherly affection.
I owe deep gratitude to Prof (Dr.) A. M. Mathai, Director & Head, Centre for Mathematical sciences (CMS), Pala Campus, for his helpful criticism and continuous support to grow academically and professionally. I also remember with gratitude the members of his research group for the friendly working atmosphere, mutual encouragement and suggestions.

I would like to thank my colleagues, staff members and students of the Government Polytechnic College, Kaduthuruthy, Kerala for their enormous help and enthusiasm. I express my sincere gratitude to the Principal and staff members of Vimala College, Thrissur, Kerala for their friendly support. Especially, the powerful prayer support from Dr (Sr.) Ritty J. Nedumpara is thankfully recorded.

I gratefully acknowledge, the financial and technical support from DST, Government of India through a Major Research Project (No. SR/S2/CMP-0012/2009). The financial support in the form of JRF through CMS, Pala Campus (No. SR/S4/MS:287/05) is also gratefully acknowledged.

I had a very productive interaction with many research colleagues, but particularly, I would like to thank Dr. George James T, Prof. Saji Joseph and Fr. Jolly Andrews for their support and cooperation. My heartfelt gratitude to Mr. Ajith R., Mr. Bhagyaraj C, Ms. Anju Babu, Ms. Jesly Jacob, and Sr. Seena Mathew S.H., for their love, concern and timely support. Help extended by Ms. Anjaly Jose is also thankfully recorded.

Words fail to express my endless love and gratitude to my parents, Mrs. Valsamma Mathew and Late Mr. K. P. Mathew, for their unconditional support, belief, love and care. You gave up your whole life for taking care of me, and I am really blessed to have you both. To my pappa, I deeply thank you for your enormous sacrifice to support my work.

My unspeakable gratefulness to my sisters, Jistymol Mathew and Jismimol Mathew, and friends for all motivation, companionship, love and support.

GISHAMOL MATHEW
