ACKNOWLEDGEMENTS

--------And success in my task can come
only from Allah. In him I trust and unto him I turn (Al Quran).
I owe it all to Allah to the Great Artisan, Creator and Master of the world, who
enshowered his all benevolence on me.
I am profoundly indebted to my guide Dr. Bahar Ahmed, Senior Lecturer, Department
of Pharmaceutical Chemistry, who has veritably given me a feeling of what research is,
for his friendly and paternal suggestion, esteemed guidance, encouragement, inspiration
and constructive criticism which helped a lot in the successful completion of my Ph.D.
work. He inspired me with his excellent research methodology, pragmatic approach and
unstinted dedication throughout my studies.
I am thankful to Dr. Manoj Varshney (Co-Supervisor) for his invaluable suggestions
throughout the research work.
I express my sincere thanks to Head, Department of Chemistry and Dean Faculty of
Science for Ph.D. registration.
I am thankful to Prof. R.K.Khar, Dean Faculty of Pharmacy for providing congenial
atmosphere for research and help throughout.
I feel obliged to Prof. M.S.Y. Khan, Head, Department of Pharmaceutical Chemistry for
providing necessary research facilities.
My sincere thanks are due to (Late) Janab Hakeem Abdul Hameed Sb. founder
Chancellor, Jamia Hamdard and Janab Abdul Mueed Sb. for their devoted efforts to
build a great atmosphere of education in the form of Jamia Hamdard where I would
complete my research work.
I expressed my profound sense of gratitude to Mrs. Shaukat Shah for providing the
central animal house facilities.
I sincerely thanks Dr. (Mrs. Meera Mathur), Dept. of Pathology (AIIMS) and Dr.
(Mrs. Vidushi Madan) Pathologist, Majeedia Hospital for helping me to perform
histopathological analysis.
Thanks are due to CDRI, Lucknow, Department of Pharmaceutical Science, Punjab
University and USIC, Delhi University for spectral measurement of my compounds.
One person, who deserves special ovations for being with me at every stage of my work, is Shah Alam Khan. I thank him from the core of my heart for displaying a sporty attitude towards difficulties and kept me vivid and cheerful.

My deep sense of gratitude is also due towards Mr. Shibli Jameel, Farhan, Aqil, Abul Kalam, Mujeeb, Aftab, Anwar-ul-Haq, Ramchandram and Mrs. Zeenat for their valuable support for helping in my day to day problem solving.

I am indebted to my friends Dr. Azhar, Dr. Jamal and Dr. Javed for their guidance and support at the hours while I needed.

Thanks are due to my loving juniors just to mention a few Rajesh Mathew, Mubasshir and Abu-Bakker for their co-operation.

I am also thankful to Mr. Masood Ali, Sr. Tech. Assist., Dept. of Pharmaceutical Chemistry for his co-operation in getting the IR and UV spectra.

Thanks also go to Mr. Mujeeb, Lab. Attendant, for his consistent co-operation and to Mr. Arif to shape the manuscript in an unblemished style.

I am also thankful to UGC, New Delhi for sanctioning the major research project entitled “Chemical and Pharmacological Investigation of Some Plants Possessing Anti-hepatotoxic activity – A search for liver protecting drugs.” to Dr. Bahar Ahmed (Principal Investigator) with one position of JRF which was awarded to me.

Above all there are some persons who are not directly involved in the research work but without whose best wishes, emotional support and encouragement, this work would not have been possible. The loving care and affection which my parents Jb. Mohd. Jamil Ansari and Begum Nazneen Khatoon, sisters Shagufta, Rehana, Shama, Shaista and my elder brother Tauqir Alam have levised upon me to stay focussed on achieving my goals unforgettable. They have been a pillar of strength for me always, they never faltered to stand by me, be it sunshine, clouds or rains.

But for all, I thank God, whose divine Grace was never slows.

(Tanveer Alam)
