ACKNOWLEDGEMENT

“And my success in my task can only come from Allah.
In Him I trust and unto Him I turn”
(Quran)

I feel honoured to express my profound gratitude to my esteemed teacher and guide Prof. Dr. M. S. Y. Khan under whose direct supervision and guidance, these research studies were carried out. His advice, valuable suggestions, deep knowledge and constructive criticism has made this research work an achievable task.

It is a great privilege for me to record my deep sense of gratitude to Alhaj Janab Hakim Abdul Hamid Sahib, Chancellor and Founder of Jamia Hamdard and to Janab Abdul Mueed Sahib, for their keen interest in these studies and for providing the infrastructural facilities. The congenial atmosphere of the university was a great motivating factor, which urged me to work with added vigor and enthusiasm.

I am thankful to Dr. K. K. Pillai, Head Department of Pharmacology for helping me while doing the anti-inflammatory studies.

Help rendered by Ms. Shaukat Shah, Incharge, Central Animal Facility, is gratefully acknowledged.

I also acknowledge with gratitude the valuable help provided by Mr. K. N. Arora of IDPL, Rishikesh, Dr. Mrs. P. K. Pillai and Rajni while carrying out anti-microbial activity.

I express my thanks to Mr. Avtar Singh, RSIC, Chandigarh for recording the NMR spectra. A similar help rendered by the NMR section of IIT is also acknowledged.
I owe very special thanks to my friend Mr. Nazim Shahzad for his help in recording the mass spectra of the synthesized compounds. Thanks are also due to RSIC, CDRI, Lucknow for recording a few other mass spectra.

I am grateful to Mr. Shibli Jameel, Dr. Mahmooduzzafar, Dr. Sushma Drabu, Dr. Geeta Chawla, Dr. Sanjay Sharma and Dr. Sandhya Bawa for their good wishes during the course of these studies.

Help provided by Mr. Wahid, Mr. Masood Ali, Mr. Zahid Ali, Mr. Rahmanul Haque and Mr. Majid Ali is acknowledged.

I am indebted to Dr. Syed Tanvir Ali whose help and encouragement has brought the thesis to its present shape. But for you both, Tanvir Bhai and Ausaf, this thesis would have been incomplete.

Ausaf, Asif and Shahid Karim need a special mention here for the conscientious help rendered by them.

I am glad to have worked with Rashmi, Vibha, Shaharyar, Gopal, Rashid, Mymoona, Asad & Sameer and am grateful for the kind assistance and encouragement, which I received by them from time to time.

It is a pleasure to thank my friends Khursheed Bhai, Ayaaz, Usman, Ajay, Nasir, Shariq, Shoeb, Faiz, Vaibhav, Shabbir and Tarique for the help and support I received throughout the course.

I am thankful to U. G. C. for awarding me a Senior Research Fellowship and contingent grant during the course of these studies.

I appreciate the love of my family - Ayesha, Rafia, Rizwan, Lubna and Sehba who have always given me moral support.

Above all my deepest sense of gratitude to my parents, to whom I am heavily in debt for the love and affection showered on me which has
contributed in a big way in achieving this goal. Thank you, Ammanni and Baba.

(SYED MISBAHUL HASAN)
