Acknowledgements

With profound gratitude I express my sincere thanks to my guide Dr. P. S. R. Murthy, Assistant Director, Division of Toxicology, Central Drug Research Institute, Lucknow, for his invaluable advice, firm support, encouragement and limitless individual attention, without which this work would not have been completed.

It is my proud privilege and honor to thank my supervisor Prof. S. K. Jain, Centre for Biotechnology, Jamia Hamdard, Hamdard University, New Delhi, for his valuable suggestions, constant encouragement and cooperation during my difficult times in course of this study. This work would have not been accomplished without his blessings.

I am grateful to Dr. C. M. Gupta, Director, Central Drug Research Institute, Lucknow, for providing me the opportunity to work in this premier research institute and providing all the necessary facilities required for carrying out this work.

My sincere thanks are due to Dr. M. P. Dubey, Ex- Deputy Director and Head, Division of Pharmacology, Central Drug Research Institute, Lucknow and Dr. (Mrs). J. D. Dhar, Ex- Assistant Director, Division of Endocrinology, Central Drug Research Institute who helped me with their valuable suggestions and encouragement during my stay in Lucknow.

I would also like to thank Dr. Sudhir Srivastava, Scientist In-Charge, Division of Toxicology, Central Drug Research Institute, Lucknow for his support and timely help whenever needed.

I wish to specially thank Mr. Sadan Pandey for his constant support, help and encouragement and Mr. Ram Kumar for providing me neat and clean glassware's for the experiments and also providing me with the various helps needed during the work.

My sincere thanks to Dr. P K. Shukla, Assistant Director, Medical Mycology Division, Central Drug Research Institute, Lucknow, Dr. (Mrs.) Shukla and Frachi for their affection and support during my stay in Lucknow.

I wish to sincerely thank Dr. (Mrs.) P. K. Murthy for her care and affection during the course of this work.

I heartily acknowledge the companionship and cooperation of my seniors and colleagues Drs. Morris, Prakash and Abhisekh and Rakesh Singh and my friends Sandeep, Ajeet, Rohit, Anupam, Umesh, Satyawun, Amol, Amogh, Ashok, Manish, Arun, Prasoon and Srinivasan with whom I shared all my joys and sorrows, failures and victories and pains and struggles.

I would also like to thank Priya, Rajeshwari, Rajeev and Shailaja my juniors in this lab and Diva and Gyanendra of the Division of Toxicology for the help rendered to me during the course of this work.
I would like to sincerely thank Dr. S. K. Rath, Dr. Sharad Sharma and the staff of the Division of Toxicology, Central Drug Research Institute, Lucknow for their help and cooperation whenever needed. My sincere appreciation also goes to all the CDRI faculty members, animal house staff, library, computer center, instrumentation, photography section and liquid nitrogen plant whose help and support was always there when needed.

I express my deepest thanks to Mr. & Mrs. S. C. Saxena and Mr. Amar Pratap Singh for their affection and care rendered to me throughout my stay in Lucknow.

Financial support in the form of fellowship from the CSIR, New Delhi is highly acknowledged.

Finally, I acknowledge with gratitude, the support of my parents, sisters and all my family members for their love, blessings, encouragement understanding and patience without which this work would not have been completed.
