ACKNOWLEDGEMENTS

With immense pleasure I present this thesis

As I come to the end of this research work, I am conscious of my obligations to persons and institutions. While it is impossible to acknowledge all of them, or any of them adequately. I consider it my privilege and foremost duty to record here my sense of indebtedness at least to some.

To mention, the foremost is my supervisor Dr. O.P. Shrivastava for his keen interest, encouragement, undistinted guidance and invaluable suggestions. My expression is perhaps not adequate enough to express the debt that I owe towards him, who not only guided me but characteristically left no stone unturned to help me and gave the first lesson and glimpses of real research.

I feel grateful to Prof. S.P. Banerjee, Head, Deptt. of Chem., Dr. H.S. Gour Vishwavidyalaya, SAGAR (India) for providing me necessary research facilities and constant help for these investigations.

I acknowledge my fervant thanks to Prof. M.C. Saxena, Dr. K.S. Pitre, Dr. R.K. Gautam & Dr. S.N. Limaye for their encouragement and suggestions in enlightening my understanding regarding research work.

I am extremely grateful to Prof. F.P. Glasser, Deptt. of Chem. University of Aberdeen, Scotland and Prof. V.V. Medikov, Institute of

I record my heart-felt thanks to my senior Dr. A.B. Khare and fellow colleague Ms. Sunanda Jain for their excellent cooperation, friendly academic discourses and inspiration.

My thesis would not have seen in the present form without requisite motivation, support and kind help which I received overtly or covertly from my seniors, friends and wellwishers even at the cost of their invaluable time. I have no words to express my gratitude towards them.

I would like to express my sincere thanks to M.P. Council of Science & Technology, Bhopal, for award of a fellowship under a research project and made my task convenient.

I extend my thanks to R.S.I.C. Nagpur and Materials Research Laboratory, The Pennsylvania State University, U.S.A., for carrying out analysis.

My thanks are also due to Neeta Typing Centre for his neat & correct typing and extending other facilities so willingly.

Last but not least, I must not fail to express my deep sense of gratitude to my family members without whose patience, sacrifice, blessings and affection I would not have enjoyed my research period.
