Acknowledgements

With unflinching respect and faith in my supervisor Dr. Pallavi Jha, Professor, Department of Physics, I express my deepest indebtedness for igniting my mind and enabling me to become a lifelong autonomous learner. I am thankful to her for providing me inspiration and strength to cope with the difficulties during my research work.

I express my gratitude to Prof. Kirti Sinha, Head, Department of Physics, for being supportive.

My special thanks to Dr. Ajay Kumar Upadhyay and Dr. Gaurav Raj for their enthusiastic help and timely advice towards completion of the thesis. I am thankful to Ms. Amita Malviya, Mr. Ram Gopal Singh and Mr. Vijay Singh for creating a congenial work environment in our Plasma Electrodynamc Group at the University.

I wish to make a special mention of my sister Ms. Shipra Mishra and brother Mr. Suneet Mishra for their involvement during the preparation of the thesis.

The thesis in the present form would not have been possible without the blessings of my parents.

I am grateful to Science and Engineering Research Council (SERC), Department of Science and Technology (DST), Government of India for awarding a fellowship under the research project granted to Prof. Pallavi Jha, during the course of which this thesis has been successfully completed. The financial support has provided me with ample computational and other research amenities.
