ACKNOWLEDGMENT

Certainly it is very difficult for me to express adequately how much I owe to my revered supervisor Professor V.K. Saxena, D.Phil. (Alld.), D.Sc. (Saugar), F.I.C., Professor of Organic Chemistry, Department of Chemistry, Doctor Harisingh Gour University, Sagar (M.P.), who took a very lively interest in the present work. His encouragement generosity and direction have been of immense help to me.

Grateful thanks are due to Prof. S.P. Banerjee, The Head of the Department, who provided me all the facilities for the completion of the present investigations.

I am immensely grateful to my seniors Dr. R.N. Yadava, Assistant Professor, Dr. G.C. Samaiya, Dr. A.K. Jain, and Dr. B.K. Bhadoria, who lent a helping hand in the completion of the thesis.

I am grateful to my friends Mr. S.K. Jain, Mr. V.K. Saini, Mr. Girish Dixit, Mr. R.K. Dave, Mr. S.K. Mandal, Miss Preeti Verma, Mrs. Basanti Jain, Miss Abha Singh and Miss Sumi Mathew, who lent a helping hand in the completion of the thesis.

I am grateful to my hostel's friends Mr. P.J. Gogoi and Mr. O.P.S. Mondhe for their helping hand in the completion of the thesis.
Specially, I am in fact obliged to Mrs. Neelam Saxena for her ready welcome and affectionate encouragement during the course of present investigations.

Acknowledgments of indebtedness are also due to Director, Central Drug Research Institute, Lucknow (U.P.) and Central Instrumentation Laboratory Sagar for carrying out the spectral analysis of the compounds discussed in the present thesis.

Grateful thanks are due to Prof. T. Reichstein and Prof. H. Wagner for supply of some authentic samples to this natural products laboratory.

I am indeed grateful to Dr. N.K. Saxena, Reader in Rani Durgavati University, Jabalpur for moral support and continuous encouragement.

Lastly, I wish to owe my profoundest gratitude to my mother and elder brother whose love and encouragement have always been a source of inspiration to me.
