I wassail his spirit of devotion, sincerity, meticulousness and benevolence. I really appreciate his willingness to meet me at short notice every time and go through several drafts of my thesis. His quest for excellence in every aspect of research has a strong bearing upon my work. This thesis has benifitted from his acumen, professional approach and able guidance. I would be failing in my duty, if I do not thank Dr. Manjit Kaur and Dr. Harpreet Kaur for patiently sifting through the manuscript and suggesting necessary changes.

I would not have contemplated this road if my parents had not given their unending and unconditional support. They have been a secure anchor during the hard and easy times of this arduous journey. I am indebted to my father Dr. Pritam Singh who made me believe in myself and had his guiding hand always on my shoulder and my mother Mrs. Jatinder Kaur for showing patience and endless love. They served as a source of constant inspiration, positive criticism and motivation throughout this study.

I also acknowledge the support of my wife, Ramneek Kaur whose commitment, deep emotional conviction and dedication has been steadfast and complete. Her active support, love and compassion have been unwavering even when my faith was weak and fragile. I thank my son Har Aades Singh who has been a constant source of strength and whose sense of humor rejuvenated me all along this journey.

In the end with a high sense of gratitude, I presume to offer my sincere thanks to the almighty, who from the very beginning endowed me with sense, reason, intellect and courage to take up this project.
