List of Figures

3.1 Optimal ratio of problems from 17 digits to 30 digits  . . . . . . . 53
3.2 Size of reduced matrix for a problem of size 25 digits  . . . . . . . 53
3.3 The relationship between the Bound($B$) and the Sieve length ($C$)
for a problem of size 25 digits  . . . . . . . . . . . . . . . . . . . . . . . . . 54
3.4 Size of reduced matrix of different bound for different size of problems 55
3.5 Bound and the Sieve length for different size of problems  . . . . . 55
