

## Acknowledgement

At the outset I would like to express my heartfelt gratitude and thanks to **Dr. A.C.Rao, B.E (Hons); M.E (I.C.E); M.E (MECH.ENGG.DESIGN); Ph.D; D.Sc; Principal; Koneru Lakshmiaah College Of Engineering, Guntur, (A.P)** for having permitted me to work for Ph.D. under him. This work is made possible because of his own research work and fatherly encouragement. Words are inadequate to express what a source of inspiration he has been in the course of this work.

It is difficult to express gratitude individually to all those who have extended their cooperation and help during this work. The author is grateful to all of them.

Finally, I would like to thank my wife for her unqualified support and co-operation without which this work would not have been possible.
