Acknowledgement

I would like to praise the almighty for everything.

I am thankful and deeply indebted to my supervisor Professor KK Pillai who has been constant support. His liberal attitude and the freedom he had given me made environment to work easily. His meticulous suggestions and guidance were highly useful in completion of the work.

I would like to express my gratitude to my supervisor Professor M. Ali, who has been available to me all the time with newer suggestions and guidance. I truly acknowledge his scientific inventive attitude which boosted my morale all throughout. I thank his constant support and valuable inputs.

I would like to express my sincere thanks to my supervisor Professor Surendar Singh, who has been instrumental in completing this project successfully. His suggestions and inputs were of immense value in shaping this work.

I remember the timely help rendered by Professor Vivekandan, Department of Neurobiochemistry, All India Institute of Medical Sciences. Dr. C. Soundar’s help is also acknowledged. Their help was useful in ending this work on a high note.

I thank librarians of NML, IIT and Jamia Hamdard for providing the facilities. I also acknowledge the help of teaching and non-teaching staff members of Faculty of Pharmacy, Jamia Hamdard for the support and help.

I would like to thank my family members for their cooperation and affection that gave me the courage to believe in my abilities and myself.

I like to thank all my friends who always believed in me and my abilities and have been a constant moral support.

M R Mohamed Rafiullah
