<th>VILLAGE-</th>
</tr>
</thead>
</table>

A. Name of the withdrawn agricultural labour household:
-------------------------------------------------------------

B. Address:
-------------------------------------------------------------
-------------------------------------------------------------
-------------------------------------------------------------
-------------------------------------------------------------
-------------------------------------------------------------

C. Age (in years):
-------------------------------------------------------------

D. Education Level ( √ or × )

(i) Up to 5th Class
(ii) 6th to 8th Class
(iii) 9th to 10th class
(iv) 11th to 12th Class
(v) Graduation/Post Graduation
(vi) Professional Degree/Diploma
(vii) Any Other
(viii) Illiterate

E. Caste ( √ or × )

(i) SC
(ii) BC
(iii) ST
(iv) General
(iv) Any other

F. Sex ( √ or × )

(i) Male
(ii) Female
G. Marital Status ( √ or × )
   (i) Married
   (ii) Un-Married
H. Number of children, if married:
   ---------------------------------------------------------------
I. Year of change of occupation:
   ---------------------------------------------------------------
J. Name of new occupation:
   ---------------------------------------------------------------
K. Place of work before change of occupation:
   ---------------------------------------------------------------
L. Place of work after change of occupation:
   ---------------------------------------------------------------
M. Income (monthly) before change of occupation:
   ---------------------------------------------------------------

<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
On the whole, our analysis was based on the primary data collected through the schedule-cum-questionnaire but sometimes during the conversation with agricultural and withdrawn agricultural labour we got the valuable information, which was not a part of our schedule-cum-questionnaire.
